# Get the full Power of Azure Automation

akquinet AG is an IT company based in Hamburg, Germany that distributes standard software (SAP, Microsoft) and individual software along with private and hybrid cloud solutions in our own certified data centers. As a partner to Microsoft we support our customers by operating their individual Environments.

Automatically deploy complex environments using the Microsoft Technologies with only a few clicks. This can help to reduce efforts on preparing Test environments for new Software or big Infrastructure changes.

With standardized Deployments we guarantee you a smooth onboarding to Azure Cloud. Establishing Standards in Architecture and Naming of Resources, your administrative efforts will be reduced due to a unique structure along your different environments.

With Azure Automation you can also manage your local Resources in Hybrid Mode. Just concentrate your Operating Tasks within Azure, no matter if your resources are in Azure or on Premise.

Simply reduce your hardware costs by using automated scaling of environments and resources. Automate operating tasks to reduce operational efforts and focus on your main business.

Microsoft Azure
