

SharePoint Online in Microsoft 365

ABOUT AKQUINET AG:

akquinet AG is an IT company based in Hamburg, Germany that distributes standard software (e.g. SAP, Microsoft) along with private and hybrid cloud solutions in our own certified data centers. As a partner to Microsoft we support our customers by operating their individual Environments.

WHAT WE OFFER

Due to our focus on the specific needs of our customers we do build, manage and operate their individual environments in M365. No matter if there are existing solutions or new environments to be build we are the partner to deliver such assets.

We guide our customer from the first idea using M365 till the full adoption of M365 technologies and beyond. Through our experience we understand that cloud adoption is a continuous journey, and we focus on the customers goal, while always bringing in our experience in regards of reasonable M365 technologies and features.

We do understand, that the way of using cloud features depends on the customers needs and its requirements so no matter if it is a pure SharePoint Online Environment or a hybrid architecture, we bring in all our experience from both sides, the cloud and our own certified data centers.

We support our customers in terms of optimization of the environment. Starting from analyzing cost and sizing effectiveness of deployed assets over process optimization till automation. All these areas undergo a continuous review in terms of effort and cost effectiveness.

SharePoint Online

Microsoft SharePoint is a cloud-based service that helps organizations share and manage content, knowledge, and applications to:

Empower teamwork

Quickly find information

Seamlessly collaborate across the organization

Why SharePoint Online

BE FUTURE-READY

With Microsoft 365, you can use a ready-made Social Intranet to transform your business from the inside out. Break down geographical and organizational barriers, open communication channels, easily access information, and bring people together to achieve a common goal. A social Intranet provides a rich portal for helping departments work together in new ways, enabling the fast, smooth flow of information and easy two-way conversations that help drive productivity

COLLABORATE ON YOUR TERMS

With a Social Intranet, you can improve communication between people, departments, and leadership.

- Instantly connect with anyone from almost anywhere.
- Improve decision making with quick access to information and knowledge sources
- Empower employees and improve overall employee retention by giving everyone a voice

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
