

1. Go to <https://agen.mobi> => click "Login" at navigation bar

The screenshot shows the top navigation bar of the AGen website, which is red and contains several menu items: Home, Products, Solution, Tutorial, Information, Contact Us, Staff, and Login. The 'Login' item is highlighted with a yellow box. Below the navigation bar, the main content area features the title 'Android Program Generator (AGen)' and a central image of a smartphone displaying the AGen application interface. Below the image, there is a paragraph of text describing the AGen Android program generator as a software tool that automates the process of creating Android applications without requiring extensive coding knowledge or experience. It also mentions that AGen offers a range of features and customization options, such as the ability to integrate with third-party APIs, add multimedia content, build in barcode scanner, and produce report after the android application collected the data. Finally, it notes that AGen Android program generators is a useful tool for beginners or individuals without coding experience, and that AGen generators can be offered in a subscription or on premises license package.

2. Login(If no account is created yet, click "Register" and register account.
