# Alerant Introduction

Company information,  
cloud-native competencies,  
references

# Who are we?

**17 years**

on the market

**HUF 3  
billion**

financial year 2020

**100  
employees**

expert team

# Our key partners

# Alerant competencies

Cloud-native application development, complex, high-availability systems, microservice architecture

Development of cloud-native application platforms (Docker, Kubernetes, OpenShift, AKS, EKS)

Cloud-native integration (EAI, ESB, API Management, API security)

Cloud-native integration (EAI, ESB, API Management, API security)

# Cloud-native services

Our strategic goal is to become the number one cloud-native IT service provider in Hungary.

By 2020, cloud-native services already accounted for 60% of our revenue.

In 2020, Alerant became a certified member of the CNCF (Cloud Native Computing Foundation).
