

Deploy Microsoft Viva Learning

Discover how Microsoft Viva Learning helps organizations drive upskilling and growth with a center for Learning in Teams and Microsoft 365. Empower employees to make learning a natural part of the day by bringing learning into the flow of work within the tools and platforms they already use.

Get started today with
Microsoft Viva Learning

- Integrate learning into the tools and platforms where users already spend their time with Microsoft Teams and Microsoft 365
- Bring together learning content and tools from different sources in one central hub
- Find the right content and discover new skills with personalized recommendations and search

This program has 3 stages to get you started quickly:

Assess & Prepare

During the first meeting, we will assess your current setup for employee self learning. We will also work with your team to plan the roll out of different types of learning content based on your targeted user groups.

Implementation

During this stage, we will configure the content sources that is required. For content that is created by your organization, we will configure a SharePoint site as a content source.

Training & Adoption

After the implementation, we will have a session of knowledge transfer to enable your team to be able to manage both the technical and content aspects. We will also share some of the best practices to help your end users to use and adopt the solution.

Cost

S\$ 3,500 – S\$5,000

Timeline

This program can range from 2 to 4 weeks depending on the requirements

People to Involve

Stakeholders/sponsors to involve such as HR/Learning and Development, and IT

Expected outcomes

- Viva Learning deployed in Microsoft Teams with the planned content sources
- A SharePoint library as your repository for your custom-built and user generated content
- Assessment and training sessions to enable your team
