> *"Your gateway to effective business optimization through artificial intelligence!"*

Our **exclusive eight-hour assessment workshop** is your gateway to the world of effective business optimization through artificial intelligence.

Dive in and explore the technology and gain insights into how you can utilize it to create tangible value, streamline processes, and foster enduring innovation.

We will illustrate why the question is no longer whether to implement AI in your organization but how to do it effectively, enabling you to optimize existing processes and chart new territories.

From capital efficiency gains to precise order and forecast optimization and seamless process automation through process mining - we spotlight the concrete pathways through which Microsoft Dynamics, powered by the Power Platform, AI Builder, and Copilot, is paving the way to sustainable success and transformative innovation.

AlfaPeople

5 Roadmap and next steps:

- Summarize the roadmap for AI adoption.
- Discuss the steps to accelerate AI adoption.

1 Introduction to Microsoft AI Technologies:

- Explore Microsoft AI and Copilots.
- See how Power Platform delivers AI for efficiency.

Workshop Contents
