# Benefit from **all the advantages** faster:

Our hybrid method for migrating to Dynamics 365 accelerates and simplifies the process. This saves time and money, reduces pressure on your team, and gets you operational much faster. Efficiency, speed, and user-friendliness are at the forefront – our approach in three logical steps makes it possible.

## Migration step 1

Including assessment, solution design, license configuration, and project planning in migration consulting.

## Migration step 2

Pilot phase as your quick live start in the cloud with all the activities, processes, and data that you currently use and need.

## Migration step 3

Expanding the functional range to meet your specific needs and digitizing processes previously unsupported by the system through time-efficient, focused sprints.

# Migration with the **AlfaPeople** methodology

We dedicate time to comprehending your business needs, creating a tailored migration strategy and timeline that won't disrupt your daily operations.

## **FASTER**

Reduce time and costs with our methodology centered on the essentials. Our experts quickly identify in your system what you're currently using and what you need. We closely monitor potential savings and efficiency enhancements in your company. The AlfaPeople methodology eliminates lengthy analysis phases, swiftly getting you up and running in the cloud!

## **More efficient**

Minimize effort and relieve your project team with AlfaPeople! Even during the pilot phase, you can use Dynamics 365 and acquaint yourself with the new system's advantages. The emphasis is on the activities, processes, and data you use and need. This ensures maximum efficiency and speed without requiring your company to halt operations.

## **More innovative**

Enhance the functionality with customized extensions! Following your initial experience with Microsoft Dynamics 365, we implement additional functions and digitalization options tailored to your specific needs - in clearly defined sprints. This leads to quicker advancement and optimized costs.

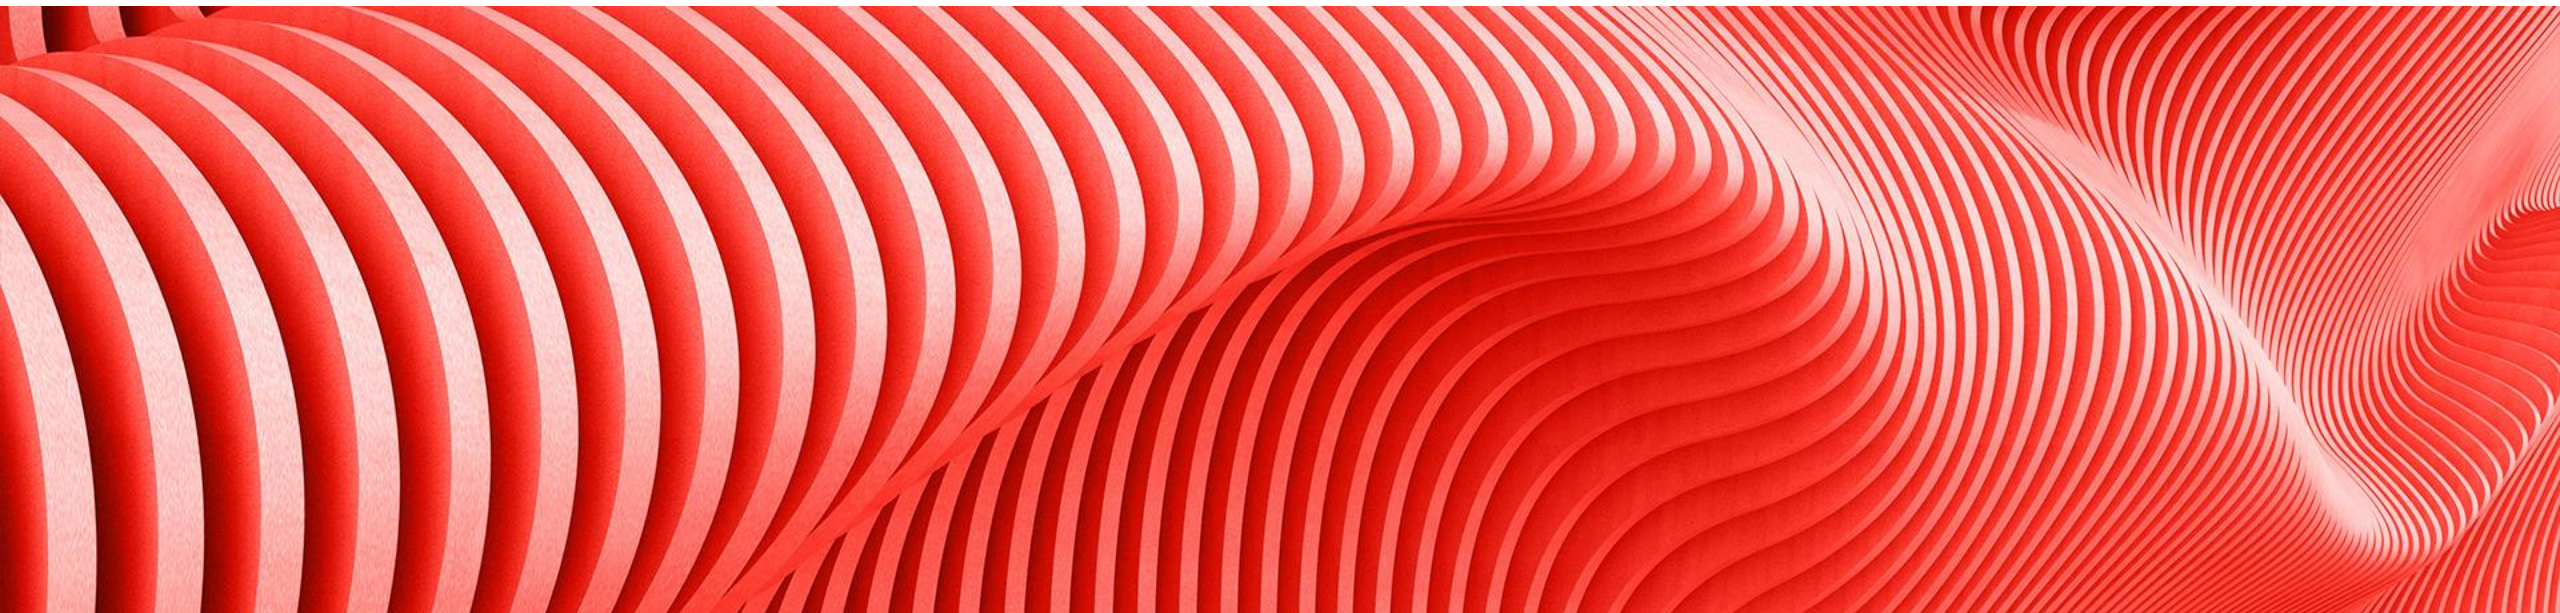

## **Well planned from A to Z**
