What We Do

What We Do

365 Security First Steps

To address the scenario where a company want to start their journey to Microsoft cloud in a more controlled fashion, we have designed a template with recommendations on settings and policies.

Microsoft Security Posture

Identify gaps, how to navigate and manage your security dashboard, and generate a detailed roadmap of areas for improvement for security.

Microsoft Security Baselines

Remediation and configuration of Security recommendations. Application and configuration of the best practices in Security for Companies.

Microsoft Security Roadmap

We will build a roadmap for the implementation of prioritized security actions for the next 12, 18 & 24 months.

Microsoft Defender For Business Deployment

We will provide you with a suite of security features that can help protect devices and data, reduce the burden on IT staff and meet regulation compliance requirements. The engagement follows these process:

Microsoft Defender Pilot

Define a Pilot group

Configure environment and policies

Monitor and measure the success of the pilot

Evaluate results and collect improvements

Full Defender Deployment

Plan and schedule deployment to all devices and users

Review implementation success and adjust

Post Defender Deployment

Maintenance and support plan for Microsoft Defender

Develop a plan (roadmap) for future improvements and upgrades

365 Modern Cloud Collaboration

We'll help you plan for functionality, environment security, business features, work capabilities, and user experience to successfully implement Teams, One Drive, SharePoint, and Office 365.

Cloud Collaboration Assessment

To help you understand your company's current environment to perform a high-level analysis of your Cloud Collaboration Maturity.

Cloud Collaboration Workshop

Show the key features and settings available through Microsoft Collaboration Solutions so that we can define the policies and guidelines.

Collaboration Governance Plan

A formal document for a quick and easy start on your Microsoft collaboration solutions defining policies, guidelines, features, settings and more.

365 Modern Collaboration Quick Start

During this Quick Start we help you choose the options that best fit your collaborative needs. We'll assist you with the deployment & implementation of your collaboration tools and enable collaboration and communication scenarios.

Applicable Solutions

We'll define a roadmap for the desired capabilities for SharePoint, OneDrive, Microsoft Teams, Exchange Online, Microsoft Outlook.

Promote new ways to Work

Manage and protect your business, improve the mobility of your teams and ensure the efficient exchange of information.

Enable Collaboration Scenarios

Knowledge management, document sharing, secure file storage, collaboration and communication, business process automation

The journey to a new way of working

- **Personal Productivity**

Set Up and License your M365 Tenant

Secure and Manage Identities with Zero Trust

Base Tools: Mail, Calendar, Storage and Apps

- **Secure Devices**

Secure the Devices from where Users Access Resources

Prepare for and Configure Windows 11 Enterprise

Efficiently Onboard and Manage All Endpoints

- **Smart Collaboration**

Create Collaboration Spaces where Teams can Work Together

Bring All your Data and Files into M365

Communicate Using Chat, Meetings and Company Hub

Take Your Organization to the Next Level with
