Objective

Choose the Right Microsoft Azure Cloud Solution Provider for Your IT Infrastructure.

Public cloud offerings offer a multi-tenant solution with shared storage, CPU, memory and network resources. Oftentimes, this native hosting platform is ideal for dev-centric cloud-based applications and hosting business workflows.

Through our true technology partner approach and service provider partnerships, we help simplify the planning, maintenance and oversight of your infrastructure, cybersecurity and compliance needs.

In partnering with All Covered, a trusted Microsoft Azure Tier 1 Cloud Solution Provider, you not only gain access to the power and scalability of the Azure Cloud, but also the personalized service of an industry leading national managed services provider.

Process

All Covered will monitor and manage your Microsoft Azure resources so that you do not need to expend your valuable resources and can focus on your business. We bring a complete tool set, processes, expertise and 24-hour coverage to the management and monitoring of your Azure resources.

Azure Managed Services with All Covered pricing will be tailored to your needs and is scalable based on the size of your environment. Leverage our technical expertise to collaboratively develop a complete migration strategy that aligns with your business outcomes and works within your budget.
