

ALLGEIER

ADVANCED POWER BI

In a Day Workshop Series

CONTENTS

Learn in a single day the skills needed to build dynamic and compelling dashboards

DAX SYNTAX

Learn how to use DAX to create your own measures and models

TIME SERIES

Work with time series data.
Create your own date dimensions.

USER EXPERIENCE

Learn new skills to design interactive navigations and provide users with enhanced experiences

This Hands-on workshop is composed of three parts:

- Part 1: Introduction to DAX
- Part 2: Advanced Modelling
- Part 3: User Experience Techniques

All attendees are encouraged to have partaken in a Dashboard in a Day event prior to signing up for the advanced Power BI course.

We run this workshop once a quarter in Switzerland for as little as CHF 250 per person

Places are very limited and fill up fast.

Get in touch to book one of our consultants to come to your organisation to run a workshop in-house

"Good Team and the format is very good, as you can get answers to your questions directly. Very friendly and competent consultants. Well done!"

"A practical hands-on crash-course, which provides an indepth view of the topics in a very short time. Great concept with personalised support. Top!"
