

# POWER BI DASHBOARD

In a Day Workshop Series

## CONTENTS

Learn in a single day the skills needed to build dynamic and compelling dashboards

### DATA SOURCES

Connect multiple data sources:  
Excel, SharePoint, SQL, Web

### MODELLING

Model your data into Measures  
and Dimensions to enable self  
service BI

### VISUALIZATION

Report & Dashboard design  
techniques. Leverage multiple visuals  
to tell a compelling data story

This Hands-on workshop is composed of three parts:

Part 1: Introduction to PowerBI  
Part 2: Dashboard Design  
Part 3: BYO data to apply the skills learnt

All attendees are encouraged to bring their own data to the workshop to apply their new skills directly. The consultants will be on hand to answer questions.

We run this workshop once a quarter in Switzerland free of charge.

Places are very limited and fill up fast.

Get in touch to book one of our consultants to come to your organisation to run a workshop in-house
