

BUILD Fitters End-to-End Automation for AEC Companies

Built for Builders. Powered by Microsoft

Purpose-built solutions powered by Microsoft Dynamics 365 and Power Platform

BUILDFitters is a suite of construction-focused apps designed to simplify and digitize operations for AEC, HVAC, mechanical, and specialty contracting firms. From project sales to vendor management and field operations, BUILDFitters apps offer practical tools tailored to real job site challenges.

Highlights

- Unifies preconstruction, sales, jobsite operations, and closeout
- Built on Microsoft Dynamics 365 & Power Platform
- Tailored for construction-specific processes
- Backed by AlphaBOLD's expertise in tech-enabled transformation

Challenges in the Construction Industry

BUILDFitters addresses these challenges with focused, intelligent apps

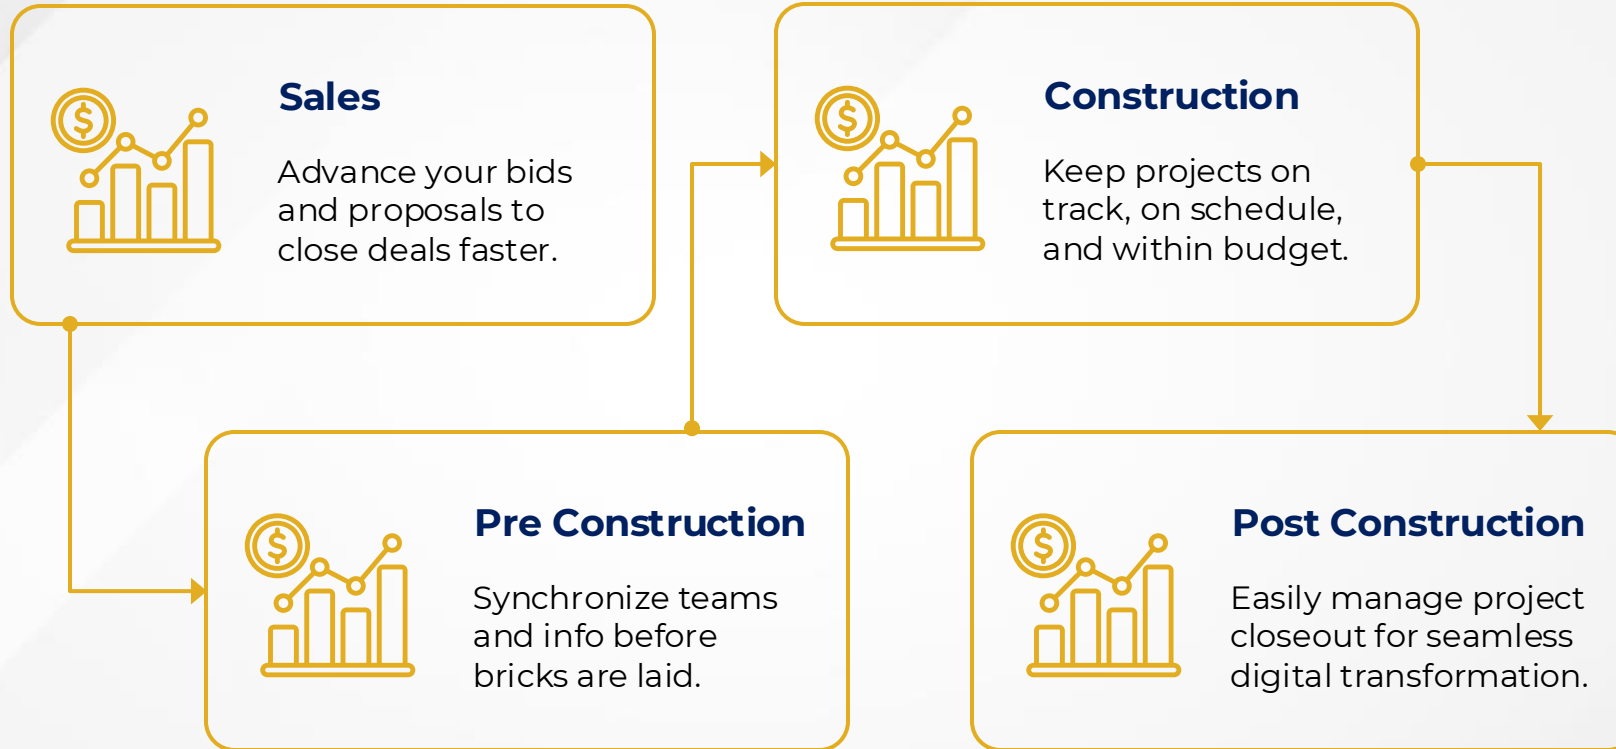

Disconnected tools and workflows

Delays in bid submissions, approvals, and change orders

Manual workflows and paper-heavy documentation

Inaccurate estimates and poor forecasting

Construction Management Services that Cover All Phases

Analytics | Field Ops | Project Mgmt | Accounting | Scheduling | Estimating | Inspections | Compliance

A dark, atmospheric photograph of a construction site. In the foreground, a yellow crane is positioned on a concrete slab. In the background, another crane is visible against a cloudy sky. The scene is filled with vertical rebar structures and construction materials.

Industries We Support

- Architecture & General Contracting
- Design/Build
- Electrical, HVAC, Plumbing, and Fire Protection

Field Operations: Centralized updates from the jobsite

Project Management: Track tasks, timelines, and risks in one place

Accounting: Sync project costs, billing, and forecasting

CRM & Sales: Monitor pipeline activity and win rates across teams

Hear from Our Clients

We at C Briggs were looking for a project management solution to keep up with our demanding schedule and help us with our design strategies; all while remaining within budget. With BUILDFitters as a construction management software, we were able to accomplish this and more. They have provided us with a solution that completely caters to our complex business needs and allows access to real-time project information.

CEO , C BRIGGS
Chip Briggs

Adopting BUILDFitters has been comfortable and convenient for Voytko Mechanical due to the thorough professionalism of those at AlphaBOLD. Thanks to their knowledge and expertise, they have developed software that meets our industry specific needs and addresses modern business requirements.
