Azure Kubernetes Service

AKS Implementation from Alpha Data

Azure Kubernetes Service

Scalable Provisioning

Comprehensive Documentation

Secure Applications with Azure

USD: 5000$
Implementation: 3-5 Days
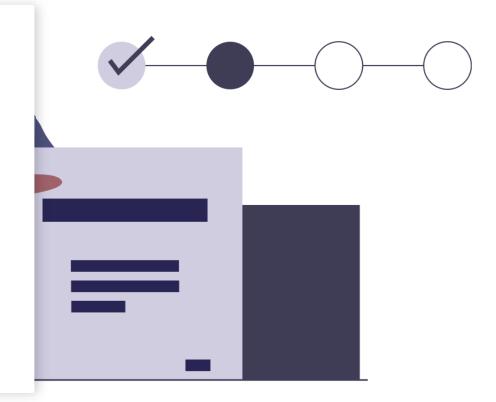

AKS Benefits

- Security

- Monitoring and Compliance

- Continuous Integration

- Continuous Delivery

- Automated Provisioning

- Fully managed clusters

- Elastic Provisioning

Azure Kubernetes Service

Process

- Requirement analysis

- Overall solution design and architecture

- Provisioning AKS service

- Creation of one container (one pod)

- Push to AKS

- Testing for scalability

USD: 5000$
Implementation: 3-5 Days
