Why **Cyware Threat Intel Management?**

Automation at Core

Fully threat intel lifecycle automation from ingestion to actioning.

Can Handle the Volume

Operationalize large volumes of structured & unstructured intel.

Fully Connected

Operationalize threat intel in all security technologies.

Bi-Directional Sharing

Share threat intel with security teams bi-directionally.

Human Collaboration

Start real-time discussions, surveys, request for info and assign actions.

Threat Advisory and Alerting

Aggregate multi-source advisories & alerts and share them in real time.

ALPHA DATA
