Denodo

The Leader in Data Virtualization

LEADERSHIP

- Longest continuous focus on data virtualization – since 1999
- Leader – Gartner Data Integration MQ 2021
- Leader in Forrester 2020 Wave – Ent. Data Fabric
  Leader in Forrester 2017 Wave – Data Virtualization
- #2 in Gartner Peer Insights for Data Integration Tools 2020
- Winner of numerous awards

DENODO OFFICES and EMPLOYEES

- **24** offices across **18** countries
- New offices in 2019 – Canada, Mexico, China
- New offices in 2020 – UAE, Saudi, Brazil, Russia
- **30%** growth in employees in 2020

CUSTOMERS and PARTNERS

- **900+** customers; **150+** new in 2020
- **250+** active and engaged partners

FINANCIALS

- Backed by $4B+ private equity firm; $0 debt
- $50 - 60+\%$ annual growth; Profitable.

ALPHA DATA

Real-time Data Integration

> "**Data provided through the data virtualization layer can be transformed and cleansed to deliver consistent and trusted data.**"

— The Forrester Tech Tide™: Enterprise Data Integration, Q4 2021

Consume
in business applications — 3

1. **Data abstraction**
2. **Zero replication, zero relocation**
3. **Real-time information**

Combine
related data into views — 2

4. **Self-service data services**
5. **Centralized metadata, security & governance**
6. **Location-agnostic multi-cloud, hybrid**

Connect
to disparate data sources — 1

Analytical **DATA CONSUMERS** **Operational**

Enterprise Applications, Reporting, BI, Portals, ESB, Mobile, Web, Users, IoT/Streaming Data

Multiple protocols, formats | Linked data services query, search, browse | Request/Reply, event driven | Secure delivery

denodo **DATA VIRTUALIZATION**

Design Tools | Data Discovery & Search | Data Services

Dynamic Optimization	**CONNECT** Normalized views of disparate data	**COMBINE** Discover, Transform, Prepare, Improve Quality, Integrate	**CONSUME** Share, Deliver, Publish, Govern, Collaborate	Resource Mgmt & Monitoring
Cache				Governance
Memory Fabric				Data catalog / Metadata
Scheduler				Security

Library of wrappers | Web automation | Any data or content | Read & write

More Structured **DISPARATE DATA SOURCES** **Less Structured**

Databases & Warehouses, Cloud/Saas Applications, Big Data, NoSQL, Web, XML, Excel, PDF, Word...
