altia | Toolkit.

Save time and money by fully automating the process of converting paper based information and structuring bulk financial data.

Investigation Toolkit gives you the edge in financial investigations, creating accurate Excel-based records of account statements. Jobs that would otherwise take several days, weeks and even months of manual keying can be completed in a matter of hours.

Why Toolkit?

Save Time. Save Resources.

Using state of the art Optical Character Recognition, Toolkit saves significant time and resources by automatically producing digital, meaningful data from paper based records. What would usually take months, takes moments using Toolkit.

Collaboration and Sharing

Embracing Microsoft Excel or Power BI based formats, Toolkit allows collaboration with investigative or intelligence teams. Using Toolkit with Toolbar allows organisations to quickly ingest, analyse, visualise and then rapidly act on usable information.

No More Human Error

Take the risk of human error out of forensically analysing financial and documentary evidence, by allowing Toolkit's powerful cognitive services to do the heavy lifting. Ensure consistency and thoroughness in every investigation or intelligence probe.

Time Means Money

Allowing Toolkit to take care of the manual process of converting often huge volumes of paper based financial and documentary information not only saves time, but ensures your resources can be better aligned to critical tasks, reducing overtime and investigative overheads.

Built by Altia specialists. Powered by our partners at Microsoft.

Cost Efficient: Eliminate the capital expense of implementation and maintenance of on-premises infrastructure. Altia will deliver our Software-as-a-Service right to your users at a fixed, all encompassing predictable subscription fee. Better solution, reduced fee.

Always Available: Microsoft Azure ensures high-availability, scalability and accessibility when you need your Altia solution the most. Rapidly deploy your Altia solution at the click of a mouse, without physical on-premises infrastructure.

Resilient: With data centres globally, you can not only ensure data-sovereignty, but also geo-redundant resilience in the event of a disaster or service outage. Minimise service disruption and data loss by relying on multiple data centres in your region, supported by only the best. Microsoft Azure.

Highly Secure: Cloud is simply a real computer sitting in Microsoft Azure's highly secure and compliant physical data centres. With 24/7 monitoring of threats, have greater confidence your information is safe from cyber security incidents and remove capital expense and risk.

altia

Trusted by 340 organisations across 17 countries.

Altia services law enforcement agencies, government departments and regulatory authorities, globally; including 100% of United Kingdom police forces.

What we offer...

altia | ACOS.

ACOS allows law enforcement agencies to manage all aspects of covert operations effectively, discreetly and securely. Ensure risk management, compliance and records management is maintained across your organisations covert functions.

altia | Toolkit.

Investigation Toolkit gives you the edge in financial investigation, creating accurate records of account statements. Jobs that would otherwise take sometimes months, can be completed in a matter of hours.

altia | SmartCase.

SmartCase is a comprehensive, flexible, multi-purpose, customisable and cost-effective, cloudbased incident, investigation and case management system offered as a self-service customisable managed service.

altia | Insight.

Insight is an end-to-end investigation management software product that has been designed to help solve various types of crime. It is fully auditable, allowing you to illustrate every step of your investigation.

altia | Toolbar.

Financial Analysis Toolbar works with the Investigation Toolkit. Combining a range of financial analysis tools with the power of Excel, it speeds up the process of interrogating financial data.

altia | Verinote.

Replace handwritten pocket notebooks, diaries and manual process with true frontline intelligence and evidence collection. Capture critical information, statements and signed entries, from the field, directly into Altia products.
