Exobe DPIA as a Service

DPIA as a Service provides guidance and support for personal data processing within Microsoft 365 with over 70 predefined templates.

The purpose of the service is to facilitate the work with impact assessments and reduce uncertainty about how personal data processing is carried out and documented.

- **Compliance:** Meets both GDPR and related requirements from IMY / EU.

- **Time Savings:** Reduces manual work by up to 90%.

- **Cost Efficiency:** Lower total management cost compared to manual processes or expensive consulting services.

- **Documentation:** Assessments and mitigations in one (1) system.

- **Information:** Tips and recommendations on technology and law.
