

Accelerate Your Sales Performance

If your business isn't effectively using a **Customer Relationship Management (CRM) system**, you're missing out; missing opportunities to anticipate your **customers' needs**, missing opportunities to connect, and missing **potential sales**. The right CRM helps you **grow your business** by tracking and **expanding your relationships** with customers. Too many companies store customer information in Microsoft Outlook or Excel where they cannot effectively share that data. Other companies have implemented a CRM that's not being used properly, resulting in wasted investment dollars. Whether you are looking at CRM solutions for the first time or hoping to upgrade your existing system, **Amaxra's experts can help**.

Before Amaxra's KickStart

Sell **SMARTER & FASTER** with a fully Optimized CRM that drives your business and doesn't drive you crazy!

KickStart Answers the Big Questions

How long will the CRM take to deploy?

3 Days to Launch Your Business!

Is it going to be expensive?

Most affordable deployment!

How do I ensure my team will use it?

Most effective methods for User Adoption!

Partner with a Certified and Proven Technology Team

At Amaxra, we have been implementing cloud-based solutions, including popular cloud-based **Microsoft Dynamics 365 solutions**, for over 10 years. We find the best way to ensure **successful user adoption** is to get your team using the CRM solution as quickly as possible. Then, should you require additional customization specific to your organization then we can work with you and your team to identify what you need and how best to implement.

By taking this approach, you can get started at the **FIXED PRICE** of **\$3,000**¹ which includes:

- Project kick-off SUCCESS session
- Configuration and Implementation
- Standard customization and defined user roles
- Embedded video training for all users
- Live online training session (2 hours)
- Post-implementation support (Up to 10 hours)

¹excludes licensing cost
