

Innova's Cloud Adoption Framework for Migration

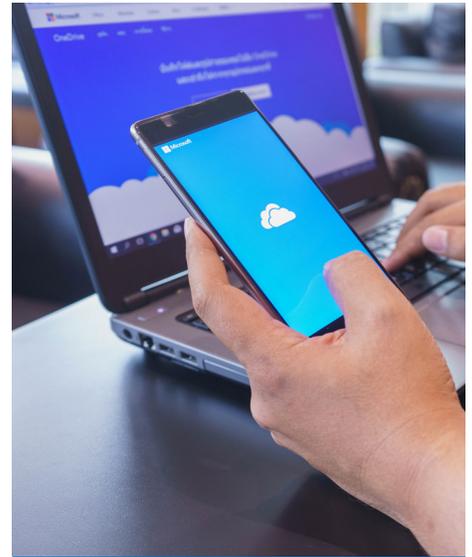

Migrate to Microsoft Cloud with Confidence

Organizations around the globe are in the race to build and deliver market-ready products. Across industries, businesses are modernizing data platforms using advanced analytics and new-age applications. Hence companies need to act quickly to leverage the possibilities of the cloud. But businesses are grappling with serious challenges in their cloud adoption journey, such as:

- Bottlenecks in managing legacy applications
- High turnaround time for application lifecycle
- Redundant IT infrastructure costs
- Uncertain roadmaps for migration
- Lack of on-demand services and contractual obligations
- One view of the enterprise landscape

Innova's Cloud Adoption Framework based end-to-end migration services to assist you to assess, prepare and build the foundational services with a landing zone ready for the smooth migration of services into Azure.

Why Clients are choosing Innova

Expertise and a proven track record in the tools, methodologies, partner solutions, and industry best practices are vital in comprehending effective on-premise cloud adoption and migration. Our experienced migration experts use proven practices and automated migration tooling verified by Microsoft for the job

We take end-to-end responsibility for managing customer Azure migration program. It starts with the Assess, foundation of a quality landing zone, and then migrating workloads quickly and consistently onto the platform. Testing and validating migration success is done cooperatively to ensure the optimal outcome

- 15-30% reduction in time to market
- Increase in agility and efficiency
- Enhanced governance and optimized cost
- Ready to deploy infrastructure strategies
- Faster assessment and discovery
- Established migration patterns
- Standardized processes ensuring security adherence
- App deployment following the pattern at scale
- Better cloud security posture management

Innova's Cloud adoption framework for migration: embracing cloud migration for innovation

Innova's strong pillars of migration strategies and in-house tools leverage the power of Azure to transform the organizational goals of cloud adoption and migration into an actionable plan.

Innova's migration methodologies rest on concrete assessments to provide a strong foundation for infrastructure, app migration, security, and governance.

Azure Migration building blocks:
