CLOUD PC BUSINESS CASE

Implementation Recommendations for Windows 365 and Azure Virtual Desktop

ASSESSMENT, REPORT AND ROADMAP
4 - 6 WEEK DURATION

AMTRA's Cloud PC Business Case is a great place to continue your journey into the world of Virtual Desktop Infrastructure. During this 4-6 week assessment, AMTRA will evaluate your environment and business goals to create a custom recommendations report and roadmap for the implementation of one or both of Microsoft's Cloud PC products (Windows 365 and Azure Virtual Desktop) in your organization.

Evaluate the advantages of similar VDI products in your environment before you commit to buy.

Make an informed decision about the technology partner who can meet your needs long-term.

Chose the tools that offer the greatest flexibility to expand your Cloud PC deployment in future.

Deliverables

- ✔ High-level technical product overview

- ✔ Review of Cloud PC licensing costs

- ✔ Risk Identification and Assessment

- ✔ Cost-Benefit Analysis

- ✔ Comprehensive Cloud PC adoption plan

Engagement Overview

During this fixed-fee engagement, AMTRA Solutions will gather information on your current state, business goals and the challenges that triggered the need for change.

We will evaluate your end-user personas and business requirements to help determine the best possible Cloud PC platform for your organization. A report will be presented to your stakeholders with our recommendations for possible next steps in your Cloud PC journey.
