RAPIDLY ENABLING AZURE VIRTUAL DESKTOP
Quickly & easily deploy Microsoft AVD Services

To enable scalable and sustainable remote working, modernized workplace technologies are needed. AMTRA has developed an enablement approach to help our clients equip their employees with the tools to do their jobs, from any location. We can help quickly and easily deploy and scale Microsoft Azure Virtual Desktop services.

FEATURES

Win 10 Enterprise multi-session for AVD
Enhancements improve the user experience, such as Windows Search index which speeds up Outlook search, delivers a per-user, portable database and can move the user from one VM to another.

Control Pane
Users can log in and determine where the user's desktop is and where to 'land' the desktop session.

Licensing
If you have already have a Windows 10 Enterprise subscription, you do not need to purchase any additional licensing or purchase a Server OS license or RDS.

Profile Management
Benefit from a profile management solution that allows OneDrive, Outlook search index, Outlook cached mode, and many others to work together flawlessly.

Simplify Desktop & Server Management in Azure
Streamline your licensing, administration, and monitoring with a single login for many routine IT processes.

Modernize to Windows 10
AVD offers a full Windows 10 Desktop as a Service user experience, that includes security updates for Windows 7 virtual desktop alongside a customized upgrade plan to migrate your virtual desktops to Windows 10.

BENEFITS

✔	Simple Installation	✔	Improved Security
✔	Easy Deployment	✔	Easier Rollback
✔	Easier Updates	✔	Simple to get rid of applications

Back-Up & Disaster Recovery

Backup Management. Azure Storage Account. Azure File Shares

AMTRA AVD Solution

Cost Estimator. Delivered by AMTRA, an Azure Expert MSP. Unified AVD Management Via Azure Portal.

ENABLE A SECURE, REMOTE DESKTOP EXPERIENCE FROM ANYWHERE

Azure Virtual Desktop provides access to a virtual Windows computer running whatever apps a typical IT sanctioned Windows computer should be running for your business. By taking advantage of Office 365 applications and LoB apps, businesses can setup multi-session Windows 10 deployments optimized to run in multi-user virtual scenarios.

From the worker's perspective, their Azure Virtual Desktop is the same as their traditional PC settings in the office.

From the business' perspective, the cost of purchasing, setting up, deploying, and securing physical hardware can be saved by entrusting Microsoft and Azure to handle those specifics in the cloud.

BRING YOUR OWN LICENSE OR PROCURE WITH AMTRA

If you already have an eligible Microsoft 365 or Windows 10 subscription, you can use them for your Windows Azure Desktop environment.

AMTRA is a certified Microsoft license provider. Our licensing experts can help you find the ideal license scenario for your unique deployment.

To discuss how AMTRA can assist you with your organization's digital transformation, please contact us today!
