

Security Operations Navigator

ANS

Think Bigger.

What are ANS Navigators?

Navigators are engagements that provide you with the resources and information to be able to realise your long-term strategic vision and steer your digital transformation journey.

What is the Security Operations Navigator?

Security Operations Navigator is to help you overcome the complexities of modernising your security operations options while demystifying the complexities of adopting cloud security services. By looking at your current state vs desired future state, we can help you define and build your security strategy to help unlock the potential of cloud security and increase its value to your organisation.

Who is it suitable for?

This Navigator is ideal for organisations that are looking to review their security posture, need a modern security platform or have concerns around migrating to cloud.

What outcomes can I expect?

We'll provide you with an unbiased and external view of how you are securing your organisation today, how you want to drive security for tomorrow and how to bridge the gap to enable you to achieve that goal. This strategy will guide you towards your desired state and will help improve your security maturity as you progress through it.

Business case

You'll receive a full, board-ready business case covering the TCO, ROI and full benefits breakdown for your organisation.

Future operating model

We'll review the current maturity of your team with regards to managing and operating a modern security platform, how to build an internal security CoE and what the most optimal team structure is to deliver your security operations vision.

Roadmap

We'll build a transition plan to allow you to understand the key stages and deliverable to migrate to a modern security operations environment and service.

What are the benefits of using an ANS Navigator?

Rapid time to value

It typically takes 4-6 weeks to complete this Navigator, and usually doesn't require more than 10 hours of your time spread over those weeks.

Board ready outputs

We will provide you with board ready outputs, a strategy document, business case and presentation.

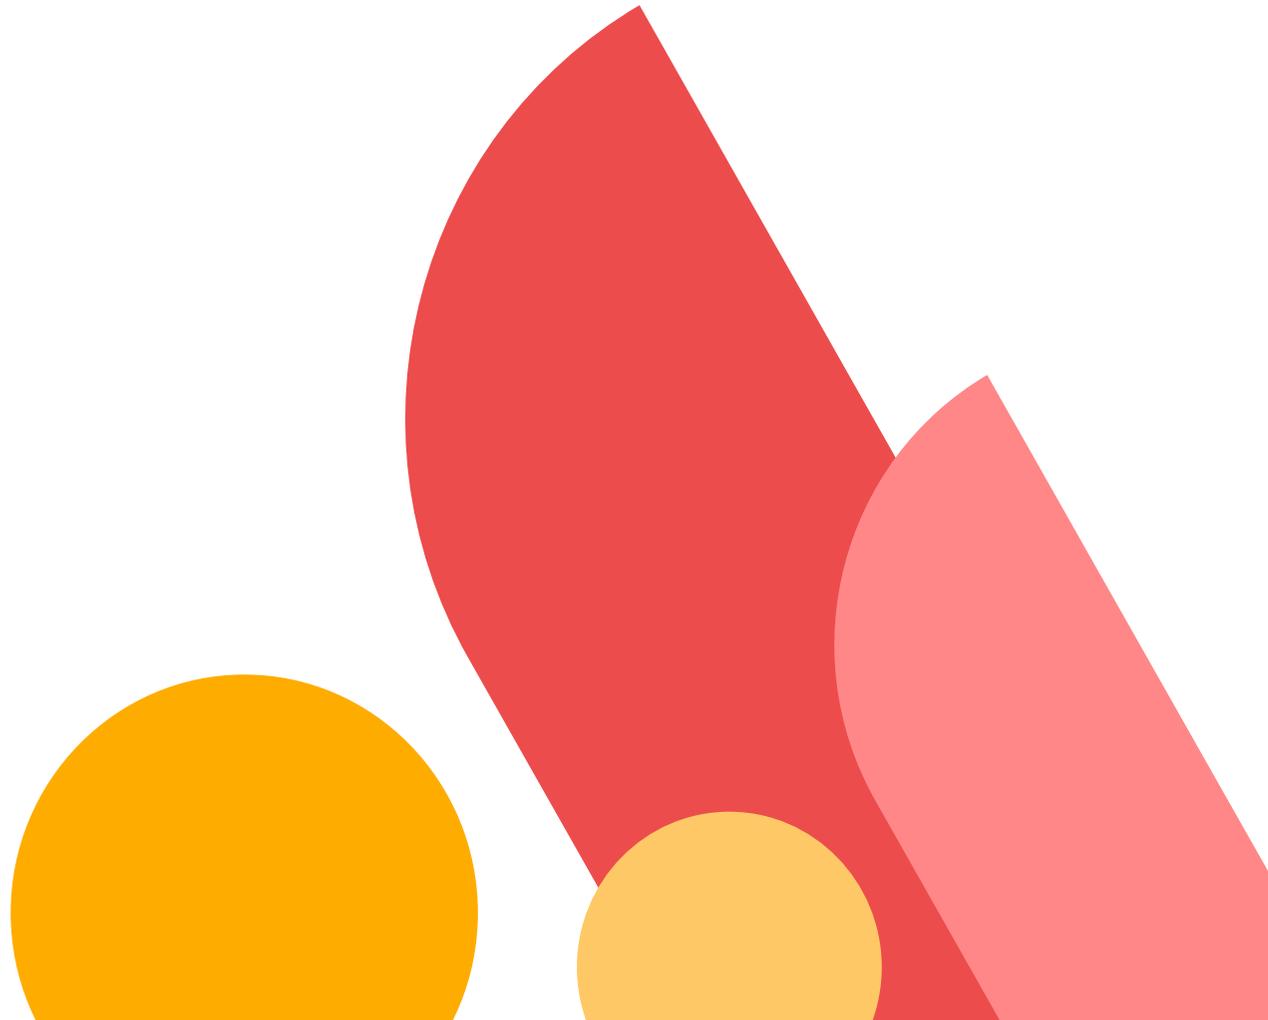

Unlock Microsoft funding

If you undertake this journey with ANS, you are more likely to be able to unlock funding from Microsoft to help deliver on your modern security platform.
