6 WEEKS

ANS Microsoft Modern Sec Ops (Sentinel) Workshop

Automated and rapid deployment is available with predefined deployment options. This approach is ideal for proof of concepts (POCs). Funding is available, subject to full deployment. Trial licenses are also available. New Sentinel deployments can benefit from free Sentinel ingestion for 30 days. Additionally, Foundation Connectors and Standard Detection Rules are deployed.

Outputs

- **Trial Licences Deployed**
- **A fully working Sentinel deployment**
- **Covering the following mandatory data sources:**
  - Entra ID
  - Microsoft Defender XDR
  - Microsoft 365 (Office 365)
  - Azure Activity
  - Microsoft Defender Threat Intelligence
  - Sentinel SOAR Playbook
- **Server and third party integrations available at extra cost**

Benefits

You'll benefit from:

- **Trial licenses for Microsoft Defender XDR**
- **Free 30 days data ingestion (for new Sentinel implementations)**
- **Fully working Sentinel deployed in your tenant**
- **Easy transition to ANS MDR service at a later date**
