

Predict. Prevent. Perform. Your Student Data Isn't Just Info – It's Power.

Bring your student data together – behaviour, academic, attendance, wellbeing – into one platform. Replace spreadsheets with real insight. Make faster decisions, with greater confidence.

You've Got Data. What You Don't Have is Answers.

 You can't compare across years, classes, or subjects – every report's a clean slate?

 NAPLAN, PAT, attendance, behaviour – none of it talks to each other?

 No clear picture of a student's journey – just disconnected snapshots?

 Staff waste hours cobbling spreadsheets instead of solving problems?

Our Answer. A Single Source of Truth for Every Student.

Replace chaos with clarity. All your systems, one dashboard.
AI-ready. Leadership-proof.

Here's What OneView Replaces

(and Why You'll Never Go Back)

Before

-  Data scattered across SIS, LMS, wellbeing, and spreadsheets
-  Every report built from scratch, over and over.
-  Can't spot patterns across year levels until it's too late.
-  Lose track of students when subjects or structures change.
-  Always reacting, never predicting.
-  Manual controls, privacy risk, limited access rules.

After

-  One clean system that pulls it all together – like magic.
-  30+ dashboards ready to go or customise in minutes.
-  Instantly see what's trending – and act on it early.
-  One timeline across all years – no data gaps, no guessing.
-  Built-in foundation for early warning signs and next-gen analytics.
-  Enterprise-grade security with role-based access and full privacy compliance.

How to Get From 'We Think' to 'We Know' – In Four Steps.

1 See it – Free demo of the platform

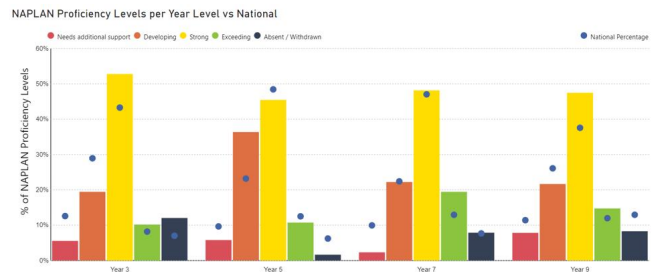

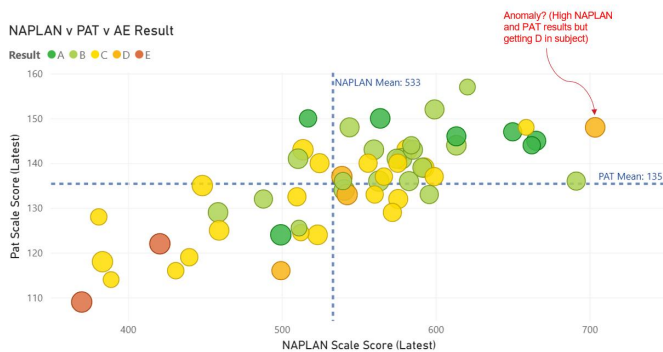

2 Plan it – Custom roadmap, no strings attached

3 Set it – We plug in, you sit back

4 Use it – Staff training included, insights day one

If You Answer to a School Board, Budget, or a Parent – This is for You.

Built for leaders who don't have time to micromanage systems and designed for teams sick of spreadsheet patch jobs.

Because Guesswork Shouldn't Be a Leadership Strategy.

- ✓ Know what's coming, not just what happened.
- ✓ Slash reporting time by 80%.
- ✓ Build a data culture that doesn't rely on one person's memory.
