

Faster Contracts. Smarter Research. Secure Solutions. Better Results.

Transform Legal Workflows with QBot - An Azure AI-Powered Platform for Law Firms.

Unlock the Future of Legal Work.

Data Security and Control

Deployed within your own Azure tenancy. No client data leaves your environment. Maintain full control over privacy, access, and configuration.

Multi Channel Deployment

Customisable AI agents across Microsoft Teams, SharePoint, web, and third party applications all with your firm's branding.

Seamless Integration

Easily connects with your existing legal and business systems, ensuring smooth adoption with minimal disruption.

Smart Document Retrieval

Instantly locate and summarise precedents, contracts and case files with contextual search and retrieval.

Antares, in strategic partnership with Microsoft, presents an exclusive offer for law firms to unlock the next generation of legal AI, purpose-built to scale with your practice and continuously enhanced by AI experts for lasting value and reliability.

QBot enables you to build and deploy specialised legal AI agents that can:

Review Contracts

Accelerates review, extracts key clauses, and ensures consistency across agreements.

Draft Precedents

Streamlines drafting with reusable templates and AI-assisted legal language.

Provide Paralegal Support

Instantly locate and summarise precedents, contracts and case files with contextual search and retrieval.

Provide Legal Advice

Provides instant guidance or triages client queries before lawyer review.

Customise for Specific Legal Practices

Customised for litigation, compliance, IP, corporate law, and more.

Support other Business Functions

Beyond legal, QBot powers HR, finance, knowledge search, and intranet support with scalable, cost-effective AI.

Limited Time Offer for Law Firms

Request a session with our team before **19 December** to discuss your firm's specific use cases and receive:

15%
discount

On Onboarding Fee
(once-off)

10%
discount

On License Fee for
the first 6 months

This is a unique opportunity to accelerate your firm's AI journey with an Azure-native, secure, and customisable platform – backed by trusted experts.

Book Your Session Today

Contact your Microsoft representative or Antares to request your tailored QBot session and discover how legal AI agents can transform your firm.
