WHAT WE OFFER

#SPACE is an intranet framework built on SharePoint and Microsoft 365 whereby individuals can easily collaborate and get work done from a central location. #SPACE is a combination of SPFx web parts that's deployed to a customer's Microsoft 365 tenant in an automated fashion. The site is configured and setup to be tailored to each customer, post-deployment.

- OneSearch: An enterprise staff directory enables people to quickly search and find information on anyone in the organisation.
- Collaboration workspaces: By using preconfigured templates for projects, teams, and communities, stakeholders can quickly share and engage with one another across different workspaces.
- Rapid implementation: The fully functional intranet requires 75-percent less configuration time and can reduce investment by 50 percent, facilitating faster deployment.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
