Workspace Booking Manager 365 for Microsoft Teams – booking office space, conference rooms and parking lots online right on the map

The rapid spread of office systems that forgo permanent desks for employees requires preliminary online booking for workspaces and conference rooms. The COVID-19 pandemic needs to have social distancing enforced between occupied desks.

Workspace Booking Manager 365 lets employees book a specific desk or conference room for a given date and time via the Internet. It monitors previous bookings and returns a warning if the user tries to book an already booked desk or conference room.

- Fast and easy online-booking of the desired desk or conference room right on the office plan.
- COVID-19 mode ensures social distancing between the booked desks.
- Working in Microsoft Teams
- Support of any number of floor and parking plans.

Online booking

- Pick up, book and cancel the table, conference room or parking lot on the plan.
- No extra software necessary, just browser.
- Booking with the accuracy of one minute.

Booking is done instantly

COVID-19 epidemic response policy compliance

- COVID-19 mode to enforce social distancing between occupied tables.

Health is ensured

Working in Microsoft Teams

- No need for any additional authorization for users.
- Booking directly from Microsoft Teams.
- User-friendly familiar interface.

Comfortable and familiar way of work

"No other solution can provide the same level of convenience while reducing costs. It is very reliable and straightforward. It seems that we didn't work without him. Reserving seats through Teams helps us get back to office work in a safe, incremental manner, while focusing on what matters most - making high-quality bathroom fixtures for our customers. "
