Admissions

Online Admission and Counselling

- Course Configuration

- Customizable Application Form and Processes for handling multiple campuses and courses

- Flawless e-scrutiny model for online verification of candidates' documents, eligibility and their approval

- Supports both fresh applications and fetching entrance examinations-based application details

- In-built Merit List and Seat Allocation rules for allocation based on category reservations

- Provision for Scheduling Multiple Counselling Rounds

- Payment Gateway Integration

- Automated notifications and alerts, applicant dashboards

- SMS/Email Gateway Integration

- Grievance Management

Reports and analytics to analyze

- Lead to Enrollment funnel

- Lead Conversion

- Drop out rates per cycle

- Category wise allocations, dropouts, vacant seat reports

Application Administration

- Setup of various rules for merit generation, merit list generation, reservation

- Define program details such as pre-qualification, fees, intake capacity/seats

- Configurable document checklists for different programs
