# How to Choose the Workspace Solutions You Need

We are happy to help you find out which workspace solution is the right fit for your business.

We recommend you to consider the following for a start:

- » How would you like to book?
- » What would you like to book?
- » Do you have existing digital signage?
- » Do you want to be able to book connected services?
- » Are there any safety rules to take into account?
- » Should the solution be installed on-site or as a cloud solution?
