

# Why switch now from legacy ECM to AODOCS

## Migrate hundreds of millions documents in just a few weeks with no risk

### Complete document control

- Control your engineering specifications, HR policies, audit reports and more
- Ensure people always use the right version of the right document
- Automate your document lifecycle, retention and disposition
- Add full traceability to all your document processes

### Agile SaaS platform

- Easily process content with AI to get reliable answers
- Benefit from automatic updates and upgrades so you can focus on clients and users
- Integrate with your business applications without hassle
- Quickly implement your document processes and adapt to your evolving business needs

### Risk-free migration

- Keep all pre-switch functions intact
- Ensure business continuity
- Migrate hundreds of millions of docs in weeks
- Work with any kind of documents, from Word to PDF to medical images and 3D files

### Affordable and transparent costs

- Eliminate hidden costs: Know how much and what you pay for from the get-go
- No more infrastructure, support, system maintenance or costly upgrades
- Single license fee covering all your needs

# It's time to focus on your business, clients and users, not IT. **It's time for AODOCS.**

## Version control

Configure validation workflows and change request processes that match the level of change control your organization needs.

## Full traceability

Ensure all changes and validations on your critical content are auditable. Easily visualize the change history of your controlled documents.

## Data Extraction

Categorize your documents and extract relevant information (expiration date, supplier name, etc) without tedious manual work.

## Trusted AI assistants

Ask any question you want to your content and get concise and precise answers, generated by the AI based on (and only on) your trusted content.

## Process Automation

Reduce human errors with easy to configure business workflows, involving both your employees and your suppliers, clients, contractors and partners.

## Easy Integration

Integrate easily with all your information systems, every AODOCS feature is available as an API.

## Easy Migration

Migrate your content from SharePoint, FileNet, Documentum, and other legacy systems with our built-in tools scaling to 100s of millions of documents. Leverage AI to tag and prioritize the content to be migrated.

## Enterprise Security

Protect and control your critical documents with our secure, SOC2 certified platform, already trusted by Fortune 500 customers. Control every aspect of the storage of your content, from its physical location to its encryption keys.

## Benefits:

# 96%

Unmatched Customer Satisfaction

AODOCS support team boasts unmatched customer satisfaction with global, multi-lingual coverage.

\*The average Computer Software CSAT benchmark of 79%

# 75%

Short Time to Value

Save 75% of time in design, development, implementation and deployment work effort using AODOCS Platform vs. legacy systems or built from scratch solutions.

# 4X

Improvement Without Upgrades

Our product team releases seamless product updates 4x per year, prioritized based on real customer feedback and suggestions for improvement
