Application Tracker

- ▶ Every application managed from request to delivery, keeping an audit trail of every application and prerequisite on the estate.
- ▶ Historical information of configuration, UAT scripts and any communication with client.

The screenshot displays the APaaS ManagementStudio interface. The main window shows a list of applications under the 'Segment: All Applications' view. The interface includes a sidebar with navigation options like Dashboards, Applications, Defects, and Contacts. The main content area features a table with the following columns: Process, Total, App ID, Customer Name, Vendor, Name, Version, Client MS Ref, Brickname, Process, and Sub Process. The table lists various applications such as 'GTR PC Configurator 1.0.2', 'Autodesk DWG TrueView 2023', 'Indigo Ultra', and 'Eclipse IDE for Java Developers'. The 'Process' column indicates the current stage of the application, such as 'Discovery', 'Packaging', 'QA', 'UAT', and 'Live'. The 'Sub Process' column provides further details on the sub-processes, including 'On Hold - Info Req Business', 'QA Queue', and 'Live'.

Process	Total	App ID	Customer Name	Vendor	Name	Version	Client MS Ref	Brickname	Process	Sub Process
All Items	323									
1. Identified	0	2322		Autodesk	DWG TrueView 2023	24.2.72		DWGTrueView2023_24.2.72_v64_R1	2. Discovery	On Hold - Info Req Business

APaaS Differentiator

- ▶ Simple on-demand pay per application - no complexity matrix
- ▶ Modular service offerings
 - ▶ Discovery and Packaging
 - ▶ UAT Management
 - ▶ Application Deployments
 - ▶ Project Management
- ▶ All inclusive unit rate - no mobilization or additional license setup costs
- ▶ Extensive experience working with corporate and government organisations
- ▶ Agile, flexible and customizable service
- ▶ Focused on Client requirements and desired outcomes
- ▶ Right first time
- ▶ Capacity on demand
- ▶ Specialist packaging company run by application packaging experts
- ▶ Bespoke automation to streamline application packaging, deployments and desktop management
- ▶ Approved on the government portals G-Cloud and CCS.

Removing Client Problems

- ▶ Our clients no longer requires expensive packaging licenses, our unitised pricing is all inclusive.
- ▶ Our clients will no longer require any additional packaging infrastructure
- ▶ Don't worry about attrition, additional recruitment for quick turnaround projects or large BAU requirements, APaaS on-demand was created to work around the clients peaks and troughs of the business.
- ▶ Reduction of client resource management
- ▶ No need to worry about additional training costs for changing of packaging and deployment technologies.
