# The Data Studio for Azure Cosmos DB

ABOUT ALPAQA STUDIO FOR COSMOS DB:

Alpaqa Studio **saves developers over 20% of time** freeing them up for more important tasks.

Built-In Performance Tuning support gives customers control over Cosmos DB consumption and helps them **reduce their Cosmos DB bills**.

See what users are saying:

"Alpaqa Studio is the most exciting tool I've seen for working with Azure Cosmos Data! Its graphical interface for constructing queries makes it easy to create complex logic, and the way it surfaces the schema to see and understand your data structure is amazing!

An absolute MUST HAVE for any relational developer learning Cosmos!"

— *Mike Benkovich, Microsoft Azure MVP*

WHAT WE OFFER

- **Azure Cosmos DB can be challenging** for SQL-oriented software developer teams and expensive when used incorrectly.

- **Azure Cosmos DB bundled with Alpaqa Studio is easier to use and to operate.**

- An intuitive data studio on top of Cosmos DB can speed-up adoption of Cosmos DB and **saves developers over 20% of time.**

- **Tasks** can be completed with a couple of **mouse-clicks** instead of custom in-house software development **saving time.**

- **Built-In Performance Tuning** gives control over Cosmos DB spending and helps **reducing Cosmos DB costs.**

Query and edit faster – single or many documents at once

Import and export – with built-in RU-throttle support

Tune performance

Automate (CLI)

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
