MANAGED SECURITY SERVICES FOR MICROSOFT 365 AND AZURE

CYBERSECURITY CHALLENGES FOR MODERN ORGANIZATIONS

As organizations adapt with the pace of technology and compete globally, they face an ever-increasing complexity of challenges to secure their business while responding to threats when and where they happen.

COMPLEX THREATS
Threats and threat actors are continuously adapting and finding new ways to exploit your users and technologies putting your business at risk.

LIMITED VISIBILITY
As networks expand, it is increasingly more difficult to monitor and secure critical assets resulting in increased operational risk.

INEFFICIENT SPEND
Limited integration and excess manageability lead to additional strain on your IT budget and resources; increasing risk.

SKILLS SHORTAGE
Without access to skilled resources, organizations struggle to handle the volume and complexity of the data generated by advanced security platforms.

SOLVING CYBERSECURITY WITH AEGIS SECURITY SERVICES

Leveraging best-in-class technology from Microsoft combined with dedicated security experts, the Aegis suite of services delivers improved results giving you peace of mind knowing your business is always protected.

SECURE YOUR MODERN WORKFORCE WITH MODERN APPROACHES
Leverage modern security platforms purpose-built to secure your organization across your digital footprint including identities, devices, applications, infrastructure, network, and data. Microsoft's XDR capabilities combined with zero-trust approach will help your organization address security for the modern workforce.

SECURE MORE, SPEND LESS
Enable your organization to achieve better security while reducing your security spend at the same time. Consolidate tools and vendors and maximize value achieved by ensuring you use the Microsoft services you are licensed for. Simplify your security management through consolidation to a single market-leading vendor.

SECURITY EXPERTISE WHERE YOU NEED IT THE MOST
Focused expertise where it matters most to ensure you are managing and monitoring the platforms and security tools you have in-place. Prevent misconfigurations that put your business at risk. Reduce alert fatigue by augmenting your team with our team of experts.

IMPROVE SECURITY MATURITY OVER TIME
Security is a journey and not a destination. Through continuous monitoring and measuring of your operational and capability maturity, you can identify gaps – both known and unknown – across people, process, and technology. Prioritize and plan how best to address those gaps, overt time, to improve your overall health.
