Ignite for Identity Security

Establish industry best practices with planning, configuration, deployment, and management of Microsoft Identity Security solutions.

Single sign-on and multi-factor authentication protect users from 99.9% of cybersecurity attacks.*

Are you aware of suspicious user and sign-in behavior in your environment? As the digital transformation rolls on, organizational barriers are blurring between who is in and out of your network. Cloud apps and the increasing use of personal devices and remote work mean that data is no longer centralized behind traditional network security. You need to be able to identify risks happening right now in your environment.

Apex Digital Solutions recognizes the impact these challenges can have on your business security and productivity. Ignite for Identity Security prepares your organization for a secure modern workplace.

Azure Active Directory is the universal enterprise security platform for managing and securing identities.

• Connect your workforce to any application
• Protect and govern access with a Zero Trust approach
• Engage with customers and partners with user-centric tools and modern collaboration
• Utilize Multi-Factor Authentication and Conditional Access

Apex Digital Solutions can assist with the evaluation, purchase, deployment, and long-term support and success management of Azure Active Directory so you can securely run and grow your business.

Microsoft | Azure Active Directory | Microsoft Defender for Identity | Microsoft Cloud App Security

Our Solution

Ignite for Identity Security provides you with best practices guidance to configure and deploy Microsoft Identity Security services, as well as 90-days of advisory and management services to ensure your success.

Apex Digital Solutions works with your team to:

• Review your current cloud Identity solutions, cloud apps, and introduction to Microsoft Identity solutions

• Implement and configure Azure Active Directory and Microsoft Cloud App Security

• Apply conditional access and Azure Active Directory Identity protection policies to pilot group of users

• Provide three months of Aegis Assist, managed security services to ensure successful adoption and outcomes with Microsoft Security solutions

Benefits & Outcomes

Azure Active Directory creates a productive and secure work environment. Apex Digital Solutions gives you the confidence and roadmap you need to reach your desired organizational outcomes:

• Easy-to-control centralized management for all identities and applications
• Reduce the impact to employee productivity, while still ensuring secure and intentional access
• Accelerate adoption of the workplace cloud applications your people use
• Develop a maturing security strategy to adapt to the continually complex nature of threats

Empowering Customers

Our approach to driving successful customer outcomes is defined by the *Customer Empowerment Feedback Loop.* This solution framework was developed by Apex Digital Solutions to support customers adopting new technologies. Our Ready, Ignite, and Empower solution offerings are designed around the customer journey from assessment and planning, to deployment and adoption, to support and long-term management. Together, these offerings propel customers forward to realize long-term benefits from their technology investments.

Customer Empowerment Feedback Loop

Our Microsoft Partnership

Apex Digital Solutions is an award-winning Microsoft Gold Partner. Our team of experts are certified in Microsoft platform and cloud solutions including Office 365, Enterprise Mobility + Security, Windows 10, and Azure.

We Are Passionate About People

Since 1999, the purpose at Apex Digital Solutions has been to "Empower people to make a positive difference in the lives of others." One of the many ways our team achieves this each day is through transformational experiences and solutions to become more secure, productive, and engaged.

Technology for People's Sake

We know technology enables success for your business. That is why we have built our business around empowering success for all of our customers through technology solutions.

Here are our promises to you:

We Bring the Team

Your core business is your expertise, technology solutions is ours. Our team of certified technical specialists follow best practices for successful deployments while our customer success managers remain engaged throughout the life cycle to ensure your desired outcomes are achieved.

We Solve, Don't Sell

We are here to help you achieve your goals. That means our primary focus is understanding your business and solving problems through technology solutions instead of selling you products that don't meet your needs.

We Create a Clear and Better Ending

Our business was formed to make a positive difference. We will always be clear about everything related to our services and the impacts of decisions made throughout our engagement with you. We will help you take advantage of technology for the betterment of your people.

> The experience that Apex brought to turning on Microsoft security features saved our team months of work.
