

Ignite for Microsoft Teams

Streamline collaboration and unleash the power of teamwork across your entire organization.

80% of employee time is spent engaged in collaborative work via meetings, phone calls, or answering emails*

The need for a unified collaboration and simplified communication solution in the workplace is more prevalent now than it ever has been before. Team members are experiencing difficulties collaborating with peers across boundaries due to cloud-focused modern workplaces and these communication breakdowns even extend to external clients. Poor audio-video experiences and difficulty accessing files is causing organizations to lose out on hundreds of hours of productivity.

Apex Digital Solutions recognizes the impact these challenges can have on business productivity. Ignite for Microsoft Teams ensures IT Teams and users are prepared for the transition to Teams.

Our Solution

Ignite for Microsoft Teams kickstarts and accelerates your transformation with the latest collaboration and communication innovation enabling your users to collaborate, meet, and share in a more open, fluid and modern workspace.

Apex Digital Solutions works with your team to:

- Assess existing productivity tools and current roadmap; identify benefits and risks for a full Microsoft Teams deployment
- Review Teams architecture, provide best practices for security and governance, and recommend third-party devices
- Discuss Skype to Teams migration scenarios and options to consider ensuring a positive user experience in the process
- Deploy Teams with a pilot group of champions representing each department to identify issues and opportunities for adoption

Microsoft Teams is the hub for teamwork in Office 365 that brings together people, conversations, and content—along with the tools that teams need—giving you the complete collaboration and communication solution. Microsoft Teams allows for communication through threaded and persistent chat, streamlined collaboration, private and channel real-time meetings, and a fully functional phone system.

Apex Digital Solutions can assist with the evaluation, purchase, deployment, and success management of Microsoft Teams so you can securely run and grow your business.

We Are Passionate About People

Since 1999, the purpose at Apex Digital Solutions has been to "Empower people to make a positive difference in the lives of others." One of the many ways our team achieves this each day is through transformational experiences and solutions to become more secure, productive, and engaged.

Technology for People's Sake

We know technology enables success for your business. That is why we have built our business around empowering success for all of our customers through technology solutions.

Here are our promises to you:

We Bring the Team

Your core business is your expertise, technology solutions is ours. Our team of certified technical specialists follow best practices for successful deployments while our customer success managers remain engaged throughout the life cycle to ensure your desired outcomes are achieved.

We Solve, Don't Sell

We are here to help you achieve your goals. That means our primary focus is understanding your business and solving problems through technology solutions instead of selling you products that don't meet your needs.

We Create a Clear and Better Ending

Our business was formed to make a positive difference. We will always be clear about everything related to our services and the impacts of decisions made throughout our engagement with you. We will help you take advantage of technology for the betterment of your people.

“
Apex's Microsoft 365 services have helped us scale up rapidly and allowed us to better serve our client base.”
