THE AVERAGE COST OF A DATA BREACH IS \$3.92 MILLION.*

*2019 Cost of Data Breach Study, IBM Security

Organizations are facing new obstacles with digital security every day. Given the volume and complexity of identities, data, applications, devices, and infrastructure, it is essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward.

OUR SOLUTION

With our Ready for Security Workshops, we will demonstrate product capabilities, assess your environment to identify security risks, and develop a customized strategic plan based on your goals with the recommendations of Microsoft security experts.

You can choose from one of our three workshops, or you can mix and match based on your organizational need and desired outcomes:

Ready for Microsoft Security

Strengthen your organization's approach to cybersecurity by understanding how to mitigate attacks, identify threats, and gain recommendations about your security strategy.

This Workshop includes:

- Threat Check analysis
- Actionable recommendations to mitigate threats
- IT and security priority assessment
- Inside look at Microsoft's holistic approach to security
- Demonstration of integrated security scenarios
- Long-term security strategy recommendations

Ready for Identity Security

Protect your authorized users' identities by understanding your identity objectives, identifying user security scenarios, and developing a joint action plan with recommendations.

This Workshop includes:

- Development of identity goals and objectives
- Definition of your existing and desired identity security posture
- Insights into apps used within your environment
- Advisory on how to prevent compromised identities
- Development of a joint plan with key results and recommendations

Ready for Endpoint Management

Enable your users to be productive on any device without compromising IT security by engaging in a deep dive into remote deployment, management, and the security of corporate and personal-owned devices.

This Workshop includes:

- Education on improving your management capabilities
- Guidance on deploying policies and tools to protect endpoints
- Deployment review of multi-factor authentication and conditional access
- Enablement for your users to be productive with the apps they need, on the devices they want

WE ARE PASSIONATE ABOUT PEOPLE

Since 1999, the purpose at Apex Digital Solutions has been to “Empower people to make a positive difference in the lives of others.” One of the many ways our team achieves this each day is through transformational experiences and solutions to become more secure, productive, and engaged.

TECHNOLOGY FOR PEOPLE’S SAKE

We know technology enables success for your business. That is why we have built our business around empowering success for all of our customers through technology solutions.

Here are our promises to you:

WE BRING THE TEAM

Your core business is your expertise, technology solutions is ours. Our team of certified technical specialists follow best practices for successful deployments while our customer success managers remain engaged throughout the life cycle to ensure your desired outcomes are achieved.

WE SOLVE, DON’T SELL

We are here to help you achieve your goals. That means our primary focus is understanding your business and solving problems through technology solutions instead of selling you products that don’t meet your needs.

WE CREATE A CLEAR AND BETTER ENDING

Our business was formed to make a positive difference. We will always be clear about everything related to our services and the impacts of decisions made throughout our engagement with you. We will help you take advantage of technology for the betterment of your people.

Leverage the Microsoft 365 security portfolio to automatically analyze threat data across domains.

- Manage and secure hybrid identities and simplify employee, partner, and customer access with Azure Active Directory and Microsoft Defender for Identity
- Deliver preventive protection, post-breach detection, automated investigation, and response for endpoints with Microsoft Defender for Endpoint
- Get visibility, control data, and detect threats across cloud services and apps with Microsoft Cloud App Security
- Secure your email, documents, and collaboration tools with Microsoft Defender for Office 365

OUR MICROSOFT PARTNERSHIP

Apex Digital Solutions is an award-winning Microsoft Gold Partner. Our team of experts are certified in Microsoft platform and cloud solutions including Office 365, Enterprise Mobility + Security, Windows 10, and Azure.

“The experience that Apex brought to turning on Microsoft Security features saved our team months of work.”

– Senior Director of Information Services, Michigan-based Non-profit
