# What is Microsoft Power Apps?

Power Apps is a suite of apps, services, and connectors, as well as a data platform, that provides a rapid development environment to build custom apps for your business needs.

Using Power Apps, you can quickly build custom business apps that connect to your data stored either in the underlying data platform (Microsoft Dataverse) or in various online and on-premises data sources (such as SharePoint, Microsoft 365, Dynamics 365, SQL Server, and so on).

What is Microsoft Power Apps?

PowerApps

Get started quickly

Empower your team to start building and launching apps right away using prebuilt templates, drag-and-drop simplicity, and quick deployment—then roll out continuous improvements as needed.
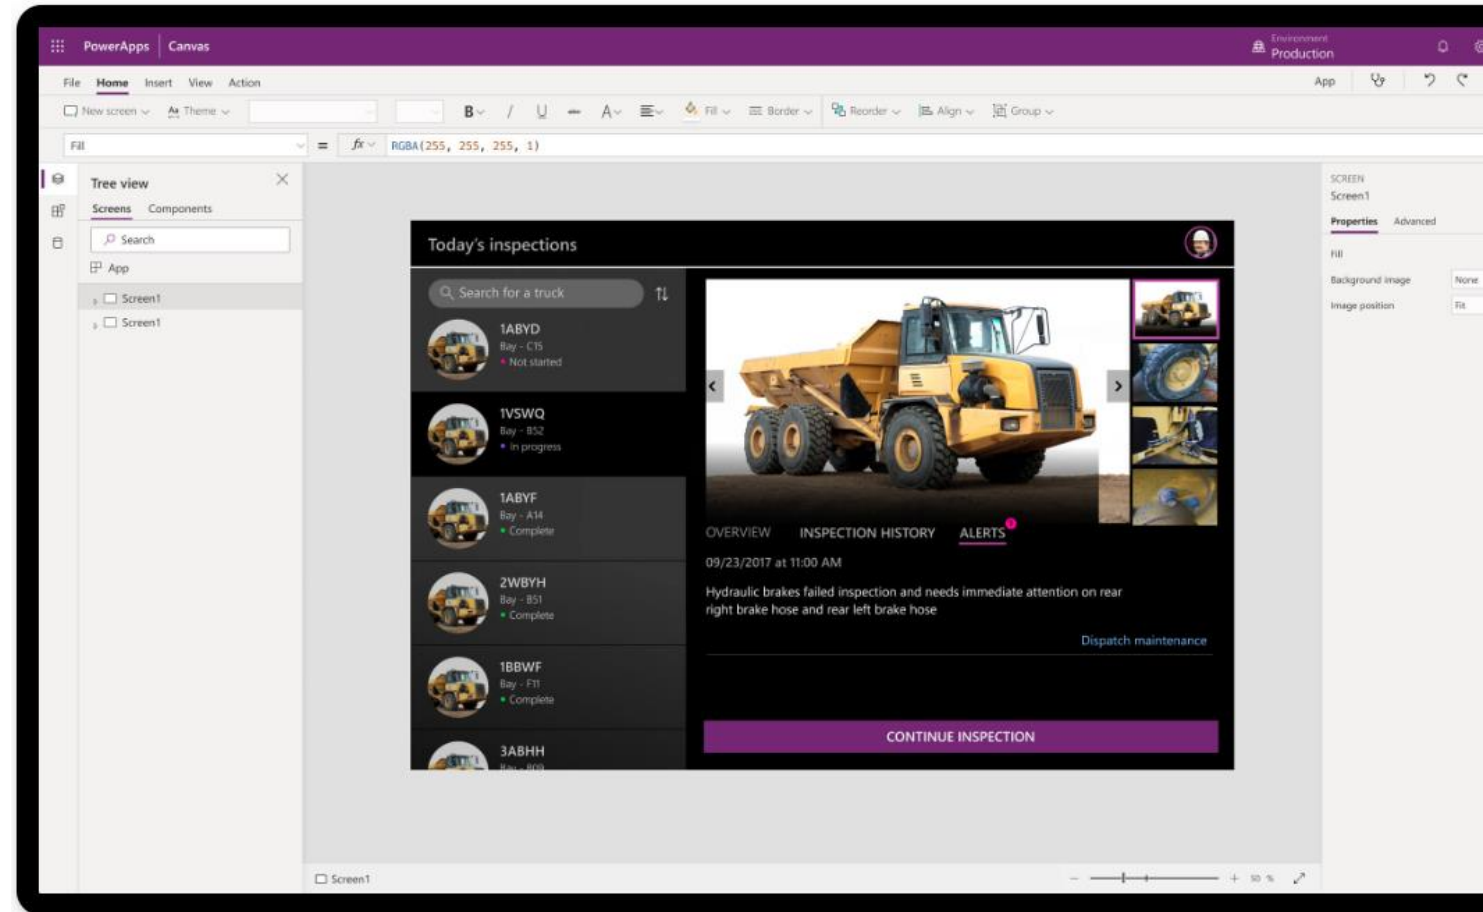

Build apps without compromises

Give everyone the power to build the apps they need with advanced functionality previously only available to professional developers—including pre-built AI components.

Enable extensibility for developers

Provide professional developers the tools to seamlessly extend app capabilities with Azure Functions and custom connectors to proprietary or on-premises systems.

What is Microsoft Power Apps?

PowerApps

Powerful alone. Better together.

The Microsoft Power Platform is more than the sum of its parts. Connect them together—and to Microsoft 365, Dynamics 365, Azure, and hundreds of other apps—and build end-to-end business solutions.

— Power BI

Make informed, confident business decisions by putting data-driven insights into everyone's hands.
