# Modernizing Traditional & Legacy Apps (MTLA) – Assessment Program

## About Applab:

Applab is a leading Software, Data and Cloud Engineering Firm in Qatar that have implemented Hundreds of Digital Solution for Government, Enterprises and SMEs. Applab is a major contributor to the Digital Transformation and Advancement Journey in Qatar and has been recognized for its achievements by His Excellency Minister of Communication and Information Technology to be the Digital Provider of the Year.

## What we offer

The Application Modernization Assessment is an in-depth process that can be divided into a series of stages:

**Strategy and Plan Workshop:** Discuss your high-level business objectives and application estate strategy.

**Data Collection and Analysis:** Collect app estate data and verify it against business objectives.

**Categorization Workshop:** Rationalize app portfolio against 5 R's (Rehost, Refactor, Rearchitect, Rebuild, Replace).

**Modernization Priority Identification:** Identify up to five applications for deeper code level analysis and migration/modernization planning.

**Final Recommendation Presentation:** An overview presentation and detailed set of reports that include our results, recommendations, and next steps, including a deployable reference architecture and migration plan for selected apps.

## What our customers are saying

"We're delighted that Applab has signed up a long-term digitalization partnership with us. It'll facilitate state-of-the-art digital platforms for our official website and Mobile Application, offering fans the best experience and satisfying their passion."

– Hassan Rabiah Al Kuwari, Mr, QSL

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

## Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
