

Jumpstart Innovation with Azure OpenAI

A Hands-On Business Value Workshop

Leverage OpenAI's ChatGPT and the Power of Language to Transform Your Business

Discover how you can harness the capabilities of language and AI to create compelling content, increase productivity, and maximize the potential of your people to exceed your expectations and further your mission. This hands-on workshop enables business and technical leaders to learn how generative pre-trained transformers (GPT) can deliver real business value, with practical examples and exercises. You'll leave equipped with the knowledge and use case(s) that can help your organization apply AI technology to solve real business problems, accelerate outcomes, and innovate.

Dive Deep into GPT and Discover its Full Potential

Learn: We guide you through the capabilities of GPT, demonstrating its power in action.

Evaluate: Work together to assess the potential impact of GPT on your business and evaluate specific use case(s).

Realize: Drive forward the next engagement using the business case(s), funding, and ideas generated during the session.

Workshop Agenda

- **Show and Tell:** Through engaging examples and demos, we'll show you how ChatGPT works and what it can do for your business.
- **Review Use Cases:** From knowledge workers to developers to industry-specific applications, we'll explore different use cases for GPT.
- **Discuss Challenges:** Let's talk about some of the challenges around GPT, such as ethics, bias, and legal considerations.
- **Capture Goals:** We'll work with you to understand your business objectives and identify the use cases that best resonate with your team.
- **Next Steps:** We'll review the next steps and engagement options, including Microsoft's available funding opportunities.

Deliverables

- **Workshop(s)** conducted by AIS with business and IT owners to understand how GPT can drive business value across your organization
- **Scope for Proof of Concept** developed by AIS with IT and business owners to solidify the specific use case(s) for future implementation as part of a follow-up engagement
- **Backlog of Use Case(s)** created in the workshops will act as a guide to support identified business outcomes where OpenAI capabilities can drive value
- **Recommendations Roadmap** and identification of available funding to support your journey using the power of Microsoft Azure and OpenAI

Why Work with AIS?

Microsoft Solution Provider: We're one of the world's foremost thought leaders in cloud transformation and recognized by Microsoft as the best of the best.

Globally-Recognized Expertise and IP: AIS is recognized as leaders for driving cloud innovation for our clients – in close strategic alignment with Microsoft.
