

SME program @appliedAl reached over 100 SMEs in Bavaria

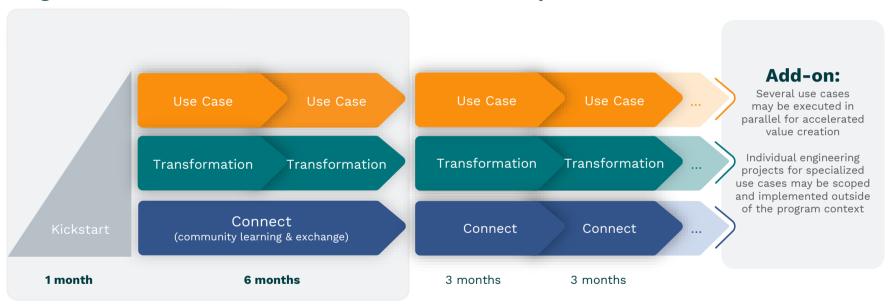

Your AI transformation with rapid value generation

Program foundation

Continuous implementation

From Copilot for quick ROI, then focus on Copilot Studio to scale on AI Foundry for strategic advantage.

Rapid pilots of proven scenarios (meeting notes, RFPs, code reviews). Governed rollout.

Exec alignment, role-based training, policies/guardrails.

Benchmarks, community of practice, quick-wins library.

10–30% task productivity, weeks to value, lower risk.

Use Case

Use Case

Custom copilots, connectors, RAG for enterprise content.

Design standards, data stewardship, maker/pro-dev upskilling.

Shared prompt/connector catalog, peer reviews/red-teaming.

Ticket deflection, faster resolution, reusable components reduce cost.

Copilot Studio

Build custom AI apps/agents, finetune, vector search, secure integration.

LangOps/MLOps, cost governance, Responsible AI controls.

Blueprints, reference repos, coinnovation with partners.

Differentiated capabilities, scalable performance, audit-ready compliance.

Azure Al Foundry*

We look forward to jointly shaping your AI journey!
