# Appranix enables businesses recover from cloud application outages

## About Appranix Cloud Resilience:

Appranix's SaaS platform empowers businesses to rapidly recover from cloud application outages, enhancing their resilience and ensuring uninterrupted business continuity.

## What we offer

Appranix recovers distributed cloud applications from outages caused by ransomware attacks, cloud misconfigurations, cloud region or zone failures or bad deployments. Appranix's unique approach delivers unprecedented resilience with automated rebuilds. Our patented continuous cloud infrastructure backup, cloud-native data backup and replication, and recovery-as-code capabilities significantly reduce rebuild time, human intervention, and enterprise risk.

Appranix is used by cloud engineering teams for cloud-native backup and DR, cyber recoveries, live environment clones for dev/test, and security testing.

Appranix is a Gartner Cool Vendor and EMA Top 3 vendor. Our SaaS platform is SOC 2 Type II certified. Join leading CTOs, CIOs, and cloud operations teams who trust Appranix to deliver the resilience they need to thrive in today's digital world.

## What our customers are saying

“Appranix has given us a solid foundation for our digital transformation efforts with capabilities to recover our distributed Azure environments”

– VP of Technology Services,  
EssilorLuxottica

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
