# COMPANY PROFILE

AppSec Labs Ltd.

[info@appsec-labs.com](mailto:info@appsec-labs.com)

<https://appsec-labs.com>

# OVERVIEW

We provide our customers with top-quality application security testing and consulting services.

Our responsive project management ensures timely and efficient handling of client requests, fostering smooth project execution.

Since our founding we have tested thousands of systems for hundreds of customers worldwide

# EXPERTS IN APPLICATION SECURITY

**Platforms:** Web, Mobile, API, AI, Cloud, IoT, and Blockchain

**What we do:** security testing to find vulnerabilities

**Extensive Experience:**  
Thousands of Applications Tested for Hundreds of Worldwide Clients

**Type of Testing:**  
Penetration testing, Code review, Security review, etc...

# REAL-TIME SECURITY TESTING

With our Agile testing method, you no longer need to wait for the final report to begin fixing vulnerabilities.

**Get notified about security reports, vulnerabilities, retest results, and more...**

---

**View Security Findings In real-time, as soon as they are discovered**

---

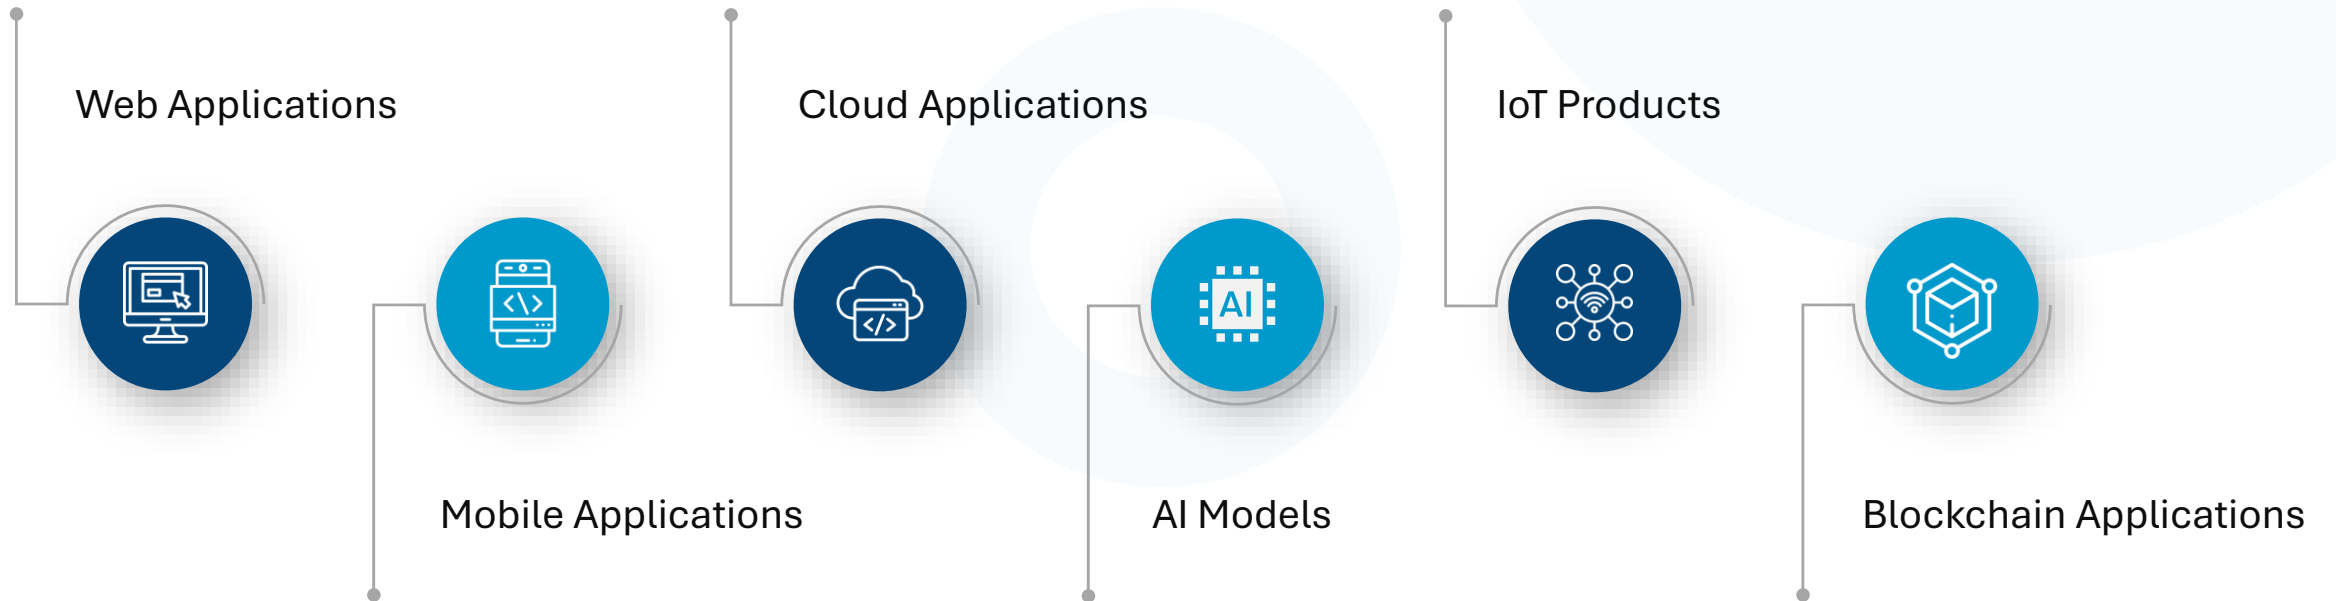

**Easily share the information with your internal technical teams, initiate retest cycles, and contact our security experts**

---

**Start saving time and money by ultimately fixing your security findings faster!**

# TECHNOLOGIES WE TEST

# CERTIFICATION

AppSec Labs helps hundreds of companies improve their product security and receive the desired certification needed to meet **regulatory requirements** such as:

The desired product of a penetration testing project is a certification that confirms **compliance to industry security standards**
