

A connected modern work experience that helps employees thrive

Appspace enhances your organization's Microsoft investment

Appspace integrates seamlessly with Microsoft's product suite to enhance communication and productivity — whether you're in the office, at home, or on the go.

- **Secure and reliable**
Appspace and Microsoft use a standard integration framework to meet buyer security and performance expectations
- **Natural extension**
Appspace integrations enhance Microsoft's capabilities and work from inside the Microsoft apps your team knows and loves
- **Standardize globally**
Implement a unified solution across all physical and remote locations, giving all employees a consistent experience
- **Add even more value**
Appspace consolidates point products with an entire workplace experience platform that connects and enhances the Microsoft experience
- **Hybrid workplace**
Appspace supports the new hybrid workplace by ensuring critical information reaches all corners of the workplace — whether it's onsite, remote, or the frontline
- **Fanatical support**
Appspace and Microsoft customer-focused teams work together to provide expert support for regional and global rollouts
