Business applications that optimize your organization & promote growth

1 **Request for Expenditure**

- Highly intuitive platform to create, use, approve, reject, & update capital expenditure request processes.
- Get reports on overall process efficiency & transparency into the ongoing RPE approval process.
- Design hierarchy-driven approvals & set up business rules with the workflow editor.

2 **Office Seating Arrangement**

- Create, design, & manage employee seating arrangements in the workplace.
- Real-time space usage matrix for flexible seat allocation & scheduling.
- Automated desk allocation based on the requirements & recommendations.

3 **Custom Survey and Questionnaire**

- Users can create, edit, & customize surveys without any coding.
- Get real-time feedback from the audience & boost engagement.
- Personalize users' journey with tailored-made questionnaires & surveys.

4 **Employee Vaccine Tracking**

- Schedule, monitor, & manage employee vaccinations to ensure workplace safety.
- Mitigate workplace health risks with precautionary measures.
- Automatically generated reports to track & analyze employee health.
