

# Defense Contractors Cybersecurity Compliance Services

The DoD has issued an interim rule change, effective Nov. 30th 2020, that will require defense contractors to face increased scrutiny of their organization's cybersecurity programs and a larger obligation to demonstrate that they are compliant with the 110 controls defined in NIST SP 800-171. As a Cybersecurity Maturity Model Certification (CMMC) Registered Provider Organization (RPO), Ardalyst offers a cyber program that meets these new requirements at a fraction of what it would cost organizations to do it themselves.

## **DFARS Provision 252.204.7019 Essentials Evaluation (4 Hours) - FREE**

- An interview with key staff to gain an understanding of your current cybersecurity program
- A preliminary score out of 110 controls
- A summary report of our findings which can be incorporated into your System Security Plan (SSP) and Plan of Actions and Milestones (POAM)

## **DFARS Provision 252.204.7019 Comprehensive Evaluation (1-2 Weeks) - \$8,000**

### **Essential Evaluation Plus:**

- A CMMC Level 3 Pre-Evaluation
- Recommendations and roadmap for remediating gaps

## **DFARS Provision 252.204.7019 Transformational Evaluation (1 Month) - \$20,000**

### **Comprehensive Evaluation Plus:**

- An executive workshop to understand your program roadmap
- Assistance drafting your SSP and developing your POAM to describe your process and timeline for eliminating gaps and vulnerabilities in your system

**Get started right away. Your journey begins here...**

## **NIST 800-171 / CMMC Cyber Security Pilot Program (6-8 Weeks) - \$25,000**

The wait is over, start your CMMC journey now with a pilot of your full cyber program. Migrate a sample of 5-10 people from your organization to Microsoft GCC-High and receive:

### **Transformational Evaluation Plus:**

- Full software licenses
- Proof of our solution and environment
- An outline of roles and responsibilities
- Validation of your user experience
- A test bed for reducing adoption risk and allow users to get onto a unified platform sooner

**Act Now! - Limited Sessions Remaining**
