MICROSOFT 365 COPILOT IS INTEGRATED INTO THE APPS YOU ALREADY USE EVERY DAY, FREEING YOU TO FOCUS ON THE MOST IMPORTANT WORK AND LESS ON THE BUSY WORK.

Microsoft 365 Copilot is an AI-powered productivity tool that integrates with Microsoft 365 apps like Word, Excel, PowerPoint, Outlook, and Teams. Utilising the power of large language models (LLMs) and AI search services to provide real-time intelligent assistance, helping users enhance their productivity and creativity.

Arinco's Copilot Accelerator enables you to seamlessly integrate Microsoft Copilot within your business operations to increase employee productivity, enhance collaboration and improve operational efficiency. By collating your internal data using cognitive services and engineering effective prompts, we help you to design and deploy Copilot in the most impactful way for your organisation.
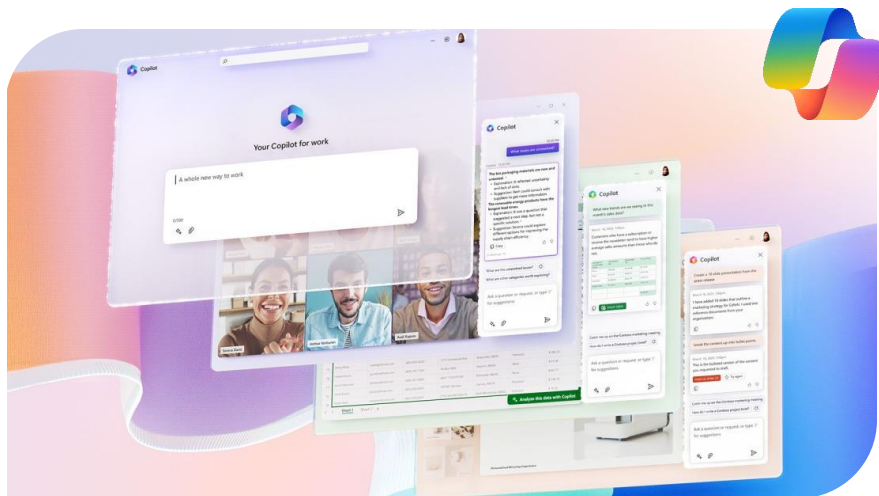

WHY CUSTOMERS USE OUR COPILOT ACCELERATOR

This engagement is relevant for those who:

- Want to introduce more natural interfaces with technology for your employees

- Have a desire to introduce intelligent collaboration into your organisation

- Want to demonstrate and measure Copilot benefits in your business

- Would like to educate the business on how to prepare for AI usage

- Want to realise productivity gains using modern AI services
