ARINCO

DATA PROTECTION ACCELERATOR

IF YOU DON'T KNOW WHAT DATA YOU HAVE, WHERE IT IS STORED, AND HOW IT IS USED, THEN IT'S IMPOSSIBLE TO PROTECT AND PREVENT DATA LOSS.

Our Data Protection Accelerator is a pre-packaged offering which strengthens your defence against data breaches and unauthorised access and helps ensure your business is compliant with data protection regulations. We achieve this by laying down the foundations for you to implement Microsoft Purview capabilities including data classification, information protection, data loss prevention, and insider risk management, so you have the confidence to know your organisational data has the appropriate data protections to prevent data loss.

Detect   **Classify**   **Protect**   **Monitor**

### WHY CUSTOMERS USE THE DATA PROTECTION ACCELERATOR

- Want to reduce the risk of accidental or deliberate data loss events

- Want to understand what data protection capabilities are available in Microsoft Purview

- Want to identify sensitive data which is potentially at risk in the organisation

- Need to accelerate the steps to start protecting data as part of a broader data protection journey

- Must identify data compliance processes to minimise the risk of fines and penalties associated with data protection regulations

---

ASSESS

- Validate sensitive information types and classification policy
