Arineo - RPA and Cloud Workflows

Two-day Workshop for digitization and automation of your business processes using Microsoft Power Platform

In our two-day Arineo RPA and Cloud Flows workshop, we analyze one of your use cases and show you how this business process can be digitized and automated with the help of the Power Platform.

Together with you, your business process will be modeled and implemented in your Microsoft Tenant.

During the workshop, you will learn a lot about the following Microsoft services, depending on your business process:

- + Power Apps / Power Automate
- + RPA
- + Cloud Flows
- + AI Builder
- + Connectors to different Databases or files

Agenda

- Extended understanding of the Power Platform
- A new digitized business process in your Microsoft Tenant
- Documentation of the implemented business process
- Recommendations for the digitization and automation of further business processes
- Learn the difference between a trigger as the first element and an action
- Concatenate values or items to variables
- Learn to create, manipulate and delete data sets
- Develop and train your first AI model with the Microsoft AI Builder
- Connect your workflow with different applications like D365 FO, D365 CE, SAP or Salesforce

Arineo - RPA and Cloud Workflows

Kombinieren und vernetzen Sie einer Vielfalt an Technologien.
Combining and networking with a variety of technologies.

Power BI
Analyse von Geschäftsdaten

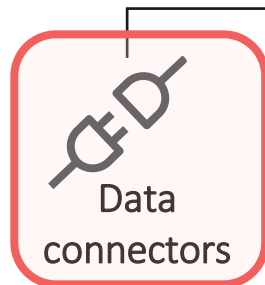

Power Apps
Entwicklung von Anwendungen
