Armanino's Power BI QuickStart enables you to deliver strategic competitive advantage across the enterprise, using Microsoft's suite of business analytics tools to analyze data and share insights. Monitor your business and get answers quickly with rich dashboards, analytics and reports available on every device, in just a few days.

### Personal Support to Help You Launch Power BI

This QuickStart package is ideal for clients who are looking to get started with their self-service, data visualization initiatives. Armanino will assist in provisioning your Power BI cloud environment and then lead and support you through your initial data modeling and visualization design efforts.

The Power BI QuickStart package includes:

- Provisioning the Power BI environment
- Connect to a single, simple Data Source
- Build a Prototype Power BI Data Model
- Add Measures and Dimensions as needed
- Design a 3-sheet interactive dashboard, incorporating up to 10 Visualizations
- Deploy for sharing with up to 10 users
- 1 Year Subscription to Power BI Pro for 10 Users

### Why Armanino?

Armanino's experienced team will help you leverage your existing Microsoft investment by providing you with a rapid but comprehensive introduction to the Power BI platform. Armanino has the deep product knowledge and experience that comes from being a long-time Microsoft partner and early adopter of Microsoft Power BI.

### Power BI Capabilities & Features

Power BI is a suite of business analytics tools to analyze data and share insights.

- **Rapid Deployment:** Cloud-based business analytics service that gives you a single view of your most critical business data.
- **Drag-and-drop visualizations:** Power BI Desktop is a feature rich data-mashup, dashboard and report authoring tool, providing business users with a 360 degree view of their most important metrics in one place.
- **Ask Questions, Get Answers:** Imagine asking "What were last year's sales by product?" and getting a stunning, interactive visualization as your answer. With Power BI, you ask questions in your natural language and receive the appropriate charts and tables as your answer.
- **Unify All of your Organization's Data:** Whether in the cloud or on-premise you can combine data from disparate databases, Excel files, web services, and streaming data and fix data quality and formatting issues quickly using Power BI's visual design tools.
- **Access Analytics Anywhere, Anytime, on Any Device:** Access your data and reports from anywhere with the Power BI Mobile apps, which update automatically with any changes to your data.

## SPECIAL OFFER - \$8,000

Armanino is currently offering the above Power BI QuickStart services plus a 1-Year subscription to Power BI Pro for 10 Named Users for just **\$8,000**.

Please contact our sales team to sign up for this special offer.
