Data migration made fast and simple with
# Cloud Migration Accelerator (CMA)

Let CMA streamline your move to the cloud. Load hundreds of terabytes in days working together with your existing ETL toolset.

- ✔ Lift and shift your largest data projects to the cloud
- ✔ Native support for a range of database systems
- ✔ Lightning fast loads with parallelization and multithreading

- ✔ Hassle-free "no mapping required" migrations
- ✔ Keep your source systems and cloud data in sync
- ✔ Avoid losing accuracy or data loss with proprietary Smart Conversion technology

> *Armeta Analytics' offering addressed our goals with an implementation faster than we ever could have expected and allowed us to reclaim our team's time.*
